

Financial statements

Independent Auditor's Report to the Members of Croda International Plc

1. Our opinion is unmodified

We have audited the financial statements of Croda International Plc ("the Company") for the year ended 31 December 2021 which comprise the Group Income Statement, the Group Statement of Comprehensive Income, the Group and Company Balance Sheets, the Group Statement of Cash Flows, the Group and Company Statements of Changes in Equity, and the related notes, including the accounting policies on pages 125 to 131 and on page 164.

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent Company's affairs as at 31 December 2021 and of the Group's profit for the year then ended;
- the Group financial statements have been properly prepared in accordance with UK-adopted international accounting standards;
- the parent Company financial statements have been properly prepared in accordance with UK accounting standards, including FRS 101 *Reduced Disclosure Framework*; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the Audit Committee.

We were first appointed as auditor by the shareholders on 25 April 2018. The period of total uninterrupted engagement is for the four financial years ended 31 December 2021. We have fulfilled our ethical responsibilities under, and we remain independent of the Group in accordance with, UK ethical requirements including the FRC Ethical Standard as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Overview

Materiality: Group financial statements as a whole	£16m (2020: £15m) 4.9% (2020: 5.0%) of normalised Group profit before tax
Coverage	85% (2020: 84%) of the total of the profits and losses that made up Group profit before tax

Key audit matters

	vs 2020
Recurring risks	
Valuation of defined benefit pension scheme obligation	◀▶
Goodwill impairment	◀▶
Recoverability of parent Company's investment in subsidiaries and intercompany debtors	◀▶

2. Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. We summarise below the key audit matters, in decreasing order of audit significance, in arriving at our audit opinion above, together with our key audit procedures to address those matters and, as required for public interest entities, our results from those procedures. These matters were addressed, and our results are based on procedures undertaken, in the context of, and solely for the purpose of, our audit of the financial statements as a whole, and in forming our opinion thereon, and consequently are incidental to that opinion, and we do not provide a separate opinion on these matters.

Group	The risk	Our response
<p>Valuation of defined benefit pension scheme obligation</p> <p>(Gross defined benefit obligation £1,309.0m; 2020: £1,544.4m), although this specific risk is only associated with the UK scheme (£1,162.6m) and US scheme (£126.8m).</p> <p>In prior year the risk related to the UK scheme (£1,178.5m), US scheme (£133.9m) and Netherlands scheme (£212.3m). During the year the material scheme held in the Netherlands has been converted into a collective defined contribution scheme, and therefore the related defined benefit obligation has crystallised and been derecognised from the balance sheet.</p> <p>Accordingly, the year-end risk relates only to the ongoing UK and US schemes.</p> <p><i>Refer to page 82 (Audit Committee Report), page 128 (accounting policy) and note 11 on pages 139 to 143 (financial disclosures).</i></p>	<p>Subjective valuation:</p> <ul style="list-style-type: none"> The Group has two defined benefit pension schemes that are material in the context of the overall balance sheet and the results of the Group. Significant estimates, including the discount rate, the inflation rate and the mortality rate, are made in valuing the Group's defined benefit pension obligations (before deducting the schemes' assets). The UK scheme is also still open to future accrual and new members, and small changes in the assumptions and estimates with respect to the obligation would have a significant effect on the financial position of the Group. The Group engages external actuarial specialists to assist them in selecting appropriate assumptions and calculate the obligations. The effect of these matters is that, as part of our risk assessment, we determined that the valuation of the defined benefit obligations has a high degree of estimation uncertainty, with a potential range of reasonable outcomes greater than our materiality for the financial statements as a whole, and possibly many times that amount. The financial statements (note 11) disclose the sensitivity estimated by the Group. 	<p>Our procedures included:</p> <ul style="list-style-type: none"> Benchmarking assumptions: we challenged key assumptions applied (discount rate, inflation rate, and mortality rate) with the support of our own actuarial specialists, including a comparison of key assumptions against market data. Actuary's credentials: we assessed the competence, capabilities and objectivity of the Group's actuarial expert. Sensitivity analysis: we assessed the sensitivity of the defined benefit obligation to changes in certain assumptions. Assessing transparency: we considered adequacy of the Group's disclosures in respect of the sensitivity of the gross obligation to changes in key assumptions. <p>We performed the tests above rather than seeking to rely on any of the Group's controls because the nature of the balance is such that we would expect to obtain audit evidence primarily through the detailed procedures described.</p> <p>Our results</p> <ul style="list-style-type: none"> We found the valuation of the defined benefit pension scheme obligation to be acceptable (2020 result: acceptable).

Financial statements (continued)

Independent Auditor's Report to the Members of Croda International Plc (continued)

Group	The risk	Our response
<p>Goodwill impairment</p> <p>Goodwill: £852.0m (2020: £866.7m), although this specific risk is only associated with the Iberchem Fragrances (£242.2m) and Iberchem Flavours (£123.6m) Cash Generating Units.</p> <p>In the prior year, risk related to Sipo and Biosector Cash Generating Units. However, these CGUs are no longer considered as part of the key audit matter in the year as the estimated recoverable amount prepared by the Directors for these CGUs indicate significantly improved headroom.</p> <p><i>Refer to page 82 (Audit Committee Report), page 127 (accounting policy) and note 12 on pages 143 to 145 (financial disclosures).</i></p>	<p>Forecast based assessment:</p> <ul style="list-style-type: none"> The Group has, over recent years, acquired a number of companies which has led to a material increase in the goodwill balance. Some of these acquisitions, and in particular Iberchem, are still at an early stage of their integration into the Group and are therefore subject to greater levels of estimation uncertainty in respect of the underlying impairment model assumptions. The headroom in respect of the impairment test on the Iberchem Fragrances and Iberchem Flavours Cash Generating Units is relatively small, and small changes in the assumptions applied in the value in use calculations could impact management's conclusions about the carrying value of goodwill and how this compares to the recoverable amount. The effect of this matter is that, as part of our risk assessment, we determined that impairment assessments in respect of the Iberchem Fragrances and Iberchem Flavours Cash Generating Units have a high degree of estimation uncertainty, with a potential range of reasonable outcomes greater than our materiality for the financial statements as a whole. The financial statements (note 12) disclose the sensitivities estimated by the Group. 	<p>Our procedures included:</p> <ul style="list-style-type: none"> Assessing methodology: we obtained the discounted value in use cash flow models and assessed the methodology, principles and integrity of each model. Sector experience: we involved our own valuation specialists to assist us in challenging the appropriateness of the discount rate assumption. Benchmark assumptions: we challenged the Group's forecast assumptions for cash flow projections, including the rate of sales growth and operating profit growth in the short to medium term, the long-term growth rates and the appropriateness of discount rates, with reference to internally and externally derived sources. Historical comparisons: we assessed the Group's historical forecasting accuracy by comparing forecasts from prior years with actual results in those years. Sensitivity analysis: we performed breakeven analysis on the key assumptions including the discount rate and growth rates. Assessing transparency: we considered the adequacy of the Group's disclosures in respect of impairment testing and whether disclosures about the sensitivity of the outcome of the impairment assessment to changes in key assumptions properly reflect the risks inherent in the valuations of goodwill. <p>We performed the tests above rather than seeking to rely on any of the Group's controls because the nature of the balance is such that we would expect to obtain audit evidence primarily through the detailed procedures described.</p> <p>Our results</p> <ul style="list-style-type: none"> We found the Group's conclusion that there is no impairment of goodwill in the Iberchem Fragrances and Iberchem Flavours Cash Generating Units to be acceptable (2020 result Sipo and Biosector Cash Generating Units: acceptable).
<p>Recoverability of parent Company's investments in subsidiaries and intercompany debtors</p> <p>Investments in subsidiaries £1,385.6m and intercompany debtors £1,325.2m (2020: £1,452.2m)</p> <p>The parent company funds subsidiaries through a combination of equity and intercompany loans and following additions associated with the acquisition of Iberchem the investments in subsidiaries balance is now also considered as part of the key audit matter in the year.</p> <p><i>Refer to page 82 (Audit Committee Report), page 130 and 164 (accounting policy) and notes F and G on pages 165 and 166 (financial disclosures).</i></p>	<p>Low risk, high value:</p> <ul style="list-style-type: none"> The carrying amount of the parent Company's intercompany debtors, held at cost less impairment, represents 48% (2020: 51%) and the carrying value of investments in subsidiaries represents 50% of the parent Company's total assets. <p>We do not consider the recoverable amount of these amounts to be at a high risk of significant misstatement, or to be subject to a significant level of judgement. However, due to their materiality in the context of the parent Company financial statements as a whole, this is considered to be the area which had the greatest effect on our overall parent Company audit.</p>	<p>Our procedures included:</p> <ul style="list-style-type: none"> Tests of detail: we assessed 100% of intercompany debtors to identify, with reference to the relevant debtors' draft balance sheet, whether they have a positive net asset value and therefore coverage of the debt owed, as well as assessing whether those debtor companies have historically been profit-making. Test of detail: we compared the carrying amount of 100% of investments with the relevant subsidiaries' draft balance sheet to identify whether their net assets, being an approximation of their minimum recoverable amount, were in excess of their carrying amount and assessing whether those subsidiaries have historically been profit-making. Assessing subsidiary audits: we assessed the work performed by the subsidiary audit team, and considering the results of that work, on those net assets, including assessing the ability of the subsidiary to obtain liquid funds and therefore the ability of the subsidiary to fund the repayment of the receivable. <p>We performed the tests above rather than seeking to rely on any of the parent Company's controls because the nature of the balance meant that detailed testing is inherently the most effective means of obtaining audit evidence.</p> <p>Our results</p> <p>We found the Group's assessment of the recoverability of investment in subsidiaries and the intercompany debtors balance to be acceptable (2020 result: acceptable).</p>

The identification and valuation of intangible assets acquired in respect of the Avanti and Iberchem business combinations was a key audit matter in the prior year. We continue to perform procedures over identification and valuation of intangible assets acquired in business combinations, however, the degree of subjectivity in assessing the assumptions applied by the Group has reduced given the smaller size of the two business combinations in 2021, and as such we have not assessed this as one of the most significant risks in our current year audit and, therefore, it is not separately identified in our report this year.

3. Our application of materiality and an overview of the scope of our audit

Materiality for the Group financial statements as a whole was set at £16.0m (2020: £15.0m), determined with reference to a benchmark of normalised Group profit before tax (PBT) of £328.6m (2020: £300.2m), of which it represents 4.9% (2020: 5.0%).

We normalised PBT by adding back adjustments that do not represent the normal, continuing operations of the Group and by averaging over three years. The items we adjusted were exceptional curtailment gains and redundancy costs as disclosed in notes 3 and 11.

Materiality for the parent Company financial statements as a whole was set at £8.7m (2020: £8.7m), which is the component materiality for the parent company determined by the Group audit engagement team. This is lower than the materiality we would otherwise have determined with reference to a benchmark of parent Company total assets of £2,778.0m (2020: £2,851.4m), of which it represents 0.3% (2020: 0.3%).

In line with our audit methodology, our procedures on individual account balances and disclosures were performed to a lower threshold, performance materiality, so as to reduce to an acceptable level the risk that individually immaterial misstatements in individual account balances add up to a material amount across the financial statements as a whole.

Performance materiality was set at 75% (2020: 75%) of materiality for the financial statements as a whole, which equates to £12.0m (2020: £11.3m) for the Group and £6.5m (2020: £6.5m) for the Parent company. We applied this percentage in our determination of performance materiality because we did not identify any factors indicating an elevated level of risk.

We agreed to report to the Audit Committee any corrected or uncorrected identified misstatements exceeding £0.8m (2020: £0.75m), in addition to other identified misstatements that warranted reporting on quantitative grounds.

Of the Group's 87 (2020: 85) reporting components, we subjected 10 (2020: 12) to full scope audits for Group purposes and 6 (2020: 7) to specified risk-focused audit procedures. One component (2020: 1) for which we performed specific risk-focused procedures was not individually financially significant enough to require a full scope audit for Group purposes but did present specific individual risks that needed to be addressed. The other 5 (2020: 6) components for which we performed work other than full scope audits for Group reporting purposes were not individually significant but were included in the scope of our Group reporting work in order to provide further coverage over the Group's results.

The components within the scope of our work accounted for the percentages illustrated opposite.

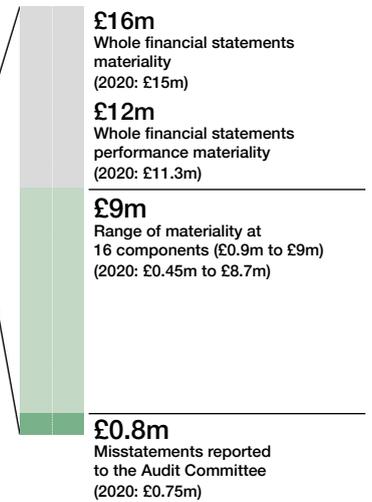

The remaining 22% (2020: 22%) of total Group revenue, 15% (2020: 16%) of total of the profits and losses that made up the Group profit before tax and 12% (2020: 10%) of total Group assets is represented by 71 (2020: 66) reporting components, none of which individually represented more than 2% (2020: 2%) of any of total Group revenue, Group profit before tax or total Group assets. For these components, we performed analysis at an aggregated Group level to re-examine our assessment that there were no significant risks of material misstatement within these.

Normalised Group profit before tax

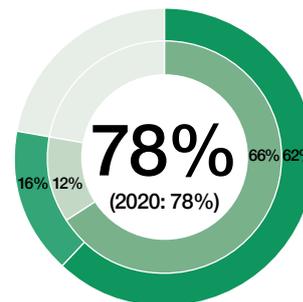

■ Normalised PBT

■ Specific risk-focused audit procedures 2020
■ Residual components

The 2020 charts have been updated to include components scoped for specified risk-focused audit procedures

Independent Auditor's Report to the Members of Croda International Plc (continued)

3. Our application of materiality and an overview of the scope of our audit continued

The Group team adopted a centralised approach to testing revenue, purchases and journal entries. Data and analytics routines were performed for 13 components, and the Group team assessed the outputs of these routines before sending outputs to component auditors and instructing them to test transactions meeting certain criteria. The instructions to component auditors also included significant areas to be covered, including the relevant risks detailed above and the information to be reported back. The Group team approved the component materialities, which ranged from £0.9m to £9.0m (2020: £0.5m to £8.7m), having regard to the mix of size and risk profile of the Group across the components. The work on 12 of the 16 components (2020: 11 of the 19 components) was performed by component auditors and the rest, including the audit of the parent Company, was performed by the Group team. The Group team performed procedures on the items excluded from normalised Group profit before tax.

The scope of the audit work performed was predominately substantive as we placed limited reliance upon the Group's internal control over financial reporting.

On account of travel restrictions in place during the performance of the audit the Group team did not visit the component auditors and instead senior members of the Group audit team held regular video conference meetings with all in scope components. These meetings involved explanation of Group audit instructions, involvement in planning audit procedures, discussing progress updates and emerging findings, reviewing outcomes of testing performed and involvement in discussing audit findings with component management. The Group audit team reviewed the audit documentation of component audits through various stages of their audits. The Group team also attended the component virtual clearance meetings. At these meetings, the findings reported to the Group team were discussed in more detail, and any further work required by the Group team was then performed by the component auditor.

4. The impact of climate change on our audit

In planning our audit, we have considered the potential impact of climate change on the Group's business and its financial statements.

The Group has set out its Climate Positive targets and Science Based targets in line with limiting global warming to 1.5°C by 2030, and to be climate net zero by 2050. The majority of the Group's carbon emissions are in the supply chain, and the Group continues to develop its assessment of climate change. Climate change initiatives impact the Group in a variety of ways including opportunities and risks relating to bio-based raw material supply, operational and supply chain decarbonisation and emerging regulatory requirements such as carbon taxes. Further information is provided on pages 40 to 43.

While the Group has set out its Climate Positive targets and Science Based targets, the Group continues to assess and develop the consequences of this in terms of capital expenditure, the cost base and impacts on cash flows.

The Group considered the impact of climate change and the Group's targets in the preparation of the financial statements, including an evaluation of critical accounting estimates and judgements. The Group concluded that this did not have a material effect on the consolidated financial statements, as described on page 125 and 126.

As part of our audit, we have made enquiries of management to understand the extent of the potential impact of climate change risks on the Group's financial statements, including their assessment of critical accounting estimates and judgements, and the effect on our audit. We have performed a risk assessment to evaluate the potential impact, including the goodwill impairment assessment, the estimates made regarding useful economic lives of property, plant and equipment, and the valuation of certain unquoted pension assets.

We held discussions with our own climate change professionals to challenge our risk assessment.

Taking into account the extent of headroom on goodwill, the nature of the Iberchem business, the expected remaining useful lives of property, plant and equipment, and the nature of unquoted pension assets, we assessed that there is not a significant impact on our audit for this financial year. There was no significant impact of climate on our key audit matters.

We have read the Group's disclosure of climate related information in the front half of the annual report as set out on pages 40 to 43 and considered consistency with the financial statements and our audit knowledge.

5. Going concern

The Directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Group or the parent Company or to cease their operations, and as they have concluded that the Group's and the parent Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

We used our knowledge of the Group, its industry, and the general economic environment to identify the inherent risks to its business model and analysed how those risks might affect the Group's and parent Company's financial resources or ability to continue operations over the going concern period. The risks that we considered most likely to adversely affect the Group's and parent Company's available financial resources and metrics relevant to debt covenants over this period were:

- The potential impact on Group revenue of economic uncertainty and reduced customer confidence with a reduction in the outlook for global demand coupled with slower economic recovery; and
- The impact of a product quality issue leading to a product recall or loss of revenue for a period of time.

We also considered less predictable but realistic second order impacts, such as product quality failures, regulatory incidents and site incidents, which could result in a rapid reduction of available financial resources.

We considered whether these risks could plausibly affect the liquidity or covenant compliance in the going concern period by assessing the degree of downside assumption that, individually and collectively, could result in a liquidity issue, taking into account the Group's current and projected cash and facilities (a reverse stress test). We also assessed the completeness of the going concern disclosure on page 125. Our conclusions based on this work:

- we consider that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Group's or Company's ability to continue as a going concern for the going concern period;
- we have nothing material to add or draw attention to in relation to the Directors' statement on page 125 on the use of the going concern basis of accounting with no material uncertainties that may cast significant doubt over the Group and parent Company's use of that basis for the going concern period, and we found the going concern disclosure on page 125 to be acceptable; and
- the same statement is materially consistent with the financial statements and our audit knowledge.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Group or the Company will continue in operation.

6. Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud (“fraud risks”) we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of Directors, the Audit Committee, internal audit and inspection of policy documentation as to the Group’s high-level policies and procedures to prevent and detect fraud, including the internal audit function, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Reading Board and Audit Committee minutes.
- Considering remuneration incentive schemes (performance related annual Bonus Plan and Performance Share Plan) and performance targets for management, including the EPS growth target.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit. This included communication from the Group audit team to full scope and specified risk-focused component audit teams of relevant fraud risks identified at the Group level and requesting these component audit teams to report to the Group audit team any instances of fraud that could give rise to a material misstatement at the Group level.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries.

On this audit, we do not believe there is a fraud risk related to revenue recognition because revenue transactions have low individual value with high volume, are routine and process driven and do not involve judgement or estimation. This reduces the opportunities for fraudulent activity.

We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries to test for all full scope and specified risk focused components based on risk criteria by the Group audit team. Component audit teams were instructed to test the identified entries to supporting documentation. These included those posted by senior finance management or other high-risk users and those posted to unusual account combinations.
- Assessing whether the judgements made in making accounting estimates are indicative of a potential bias.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, through discussion with the Directors and other management (as required by auditing standards), and from inspection of the Group’s regulatory and legal correspondence and discussed with the Directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit. This included communication from the Group audit team to all full scope and specified risk-focused component audit teams of relevant laws and regulations identified at the Group level, and a request for these component auditors to report to the Group team any instances of non-compliance with laws and regulations that could give rise to a material misstatement at the Group level.

The potential effect of these laws and regulations on the financial statements varies considerably. Firstly, the Group is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation, pensions legislation, and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Group is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation or the loss of the Group’s licence to operate. We identified the following areas as those most likely to have such an effect: GDPR compliance, health and safety and product liability, competition, anti-bribery and corruption, intellectual property, employment law, tax, trade compliance laws and environmental legislation, recognising the nature of the Group’s activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

We discussed with the Audit Committee environmental matters related to actual or suspected breaches of laws or regulations, for which disclosure is not necessary, and considered any implications for our audit.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Independent Auditor's Report to the Members of Croda International Plc (continued)

7. We have nothing to report on the other information in the Annual Report

The Directors are responsible for the other information presented in the Annual Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Strategic Report and Directors' Report

Based solely on our work on the other information:

- we have not identified material misstatements in the Strategic Report and the Directors' Report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Directors' Remuneration Report

In our opinion the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006.

Disclosures of emerging and principal risks and longer-term viability

We are required to perform procedures to identify whether there is a material inconsistency between the Directors' disclosures in respect of emerging and principal risks and the viability statement, and the financial statements and our audit knowledge.

Based on those procedures, we have nothing material to add or draw attention to in relation to:

- the Directors' confirmation within the long-term viability statement on pages 56 and 57 that they have carried out a robust assessment of the emerging and principal risks facing the Group, including those that would threaten its business model, future performance, solvency and liquidity;
- the Principal Risks disclosures describing these risks and how emerging risks are identified, and explaining how they are being managed and mitigated; and

the Directors' explanation in the long-term viability statement of how they have assessed the prospects of the Group, over what period they have done so and why they considered that period to be appropriate, and their statement as to whether they have a reasonable expectation that the Group will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

We are also required to review the long-term viability statement, set out on pages 56 and 57 under the Listing Rules. Based on the above procedures, we have concluded that the above disclosures are materially consistent with the financial statements and our audit knowledge.

Our work is limited to assessing these matters in the context of only the knowledge acquired during our financial statements audit. As we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of anything to report on these statements is not a guarantee as to the Group's and parent Company's longer-term viability.

Corporate governance disclosures

We are required to perform procedures to identify whether there is a material inconsistency between the Directors' corporate governance disclosures and the financial statements and our audit knowledge.

Based on those procedures, we have concluded that each of the following is materially consistent with the financial statements and our audit knowledge:

- the Directors' statement that they consider that the Annual Report and financial statements taken as a whole is fair, balanced and understandable, and provides the information necessary for shareholders to assess the Group's position and performance, business model and strategy;
- the section of the annual report describing the work of the Audit Committee, including the significant issues that the Audit Committee considered in relation to the financial statements, and how these issues were addressed; and
- the section of the annual report that describes the review of the effectiveness of the Group's risk management and internal control systems.

We are required to review the part of Corporate Governance Statement relating to the Group's compliance with the provisions of the UK Corporate Governance Code specified by the Listing Rules for our review. We have nothing to report in this respect.

8. We have nothing to report on the other matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent Company financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

9. Respective responsibilities

Directors' responsibilities

As explained more fully in their statement set out on page 111, the Directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Group and parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Group or the parent Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

10. The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Group Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The consolidated financial statements have been prepared under the historical cost convention, in accordance with applicable law and UK-adopted international accounting standards. A summary of the more important Group accounting policies is set out below.

Going concern

The ongoing impact of COVID-19 and the broader consequences on the markets in which the Group operates have been considered in the preparation of the financial statements including our evaluation of critical accounting estimates and judgements which are detailed below. The financial statements on pages 120 to 161 have been prepared on a going concern basis which the Directors believe to be appropriate for the following reasons:

In 2021, the Group successfully extended the existing 2019 Club facility by a further year, resetting its five-year term and resulting in a maturity date of October 2026. At 31 December 2021 the Group had £1,226m of committed debt facilities available from its banking group, USPP bondholders and lease providers, with principal maturities between 2023 and 2030, of which £334.4m (2020: £378.3m) was undrawn, together with cash balances of £112.8m (2020: £106.5m).

The Directors have reviewed the liquidity and covenant forecasts for the Group's going concern assessment period covering at least 12 months from the date of approval of the financial statements. The Directors have also considered sensitivities in respect of potential downside scenarios, and the mitigating actions available, in concluding that the Group is able to continue in operation for a period of at least 12 months from the date of approving the financial statements. These sensitivities include a severe but plausible downside scenario, alongside an additional scenario considered to be severe but remote. Relative to a base case scenario, the sensitivities assume increasingly pessimistic outlooks for global demand, coupled with slower economic recoveries. In the severe downside scenario, demand falls below average 2021 levels throughout 2022 and 2023. Furthermore, both downside scenarios also assume a material increase in working capital, due to inventory build and higher customer receivables, and substantial margin erosion, predicated on a further deterioration in the economic conditions.

Based on 2021 results, reverse stress testing assesses that adjusted operating profit would need to fall by 69% to trigger an event of default, before consideration of available actions to conserve cash. The Directors do not consider this a plausible scenario. In considering the suitability of these scenarios, the Directors have considered, among other factors, the impact of the risk scenario combinations that form part of the viability statement.

In the downside scenarios, the Group continues to have significant liquidity headroom and good financial covenant headroom under its debt facilities. Excluded from the above scenario testing, the Directors have also considered the impact on the Group from the agreement to sell the majority of the Performance Technologies and Industrial Chemicals businesses for total consideration of €915m. The disposal will have a significant positive impact on Croda's leverage and liquidity in the short to medium term. The Directors are therefore satisfied that the Group has sufficient resources to continue in operation for a period of not less than 12 months from the date of approval of the financial statements. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

Climate change

The Group has long recognised the scale of the climate emergency and considers this to offer both opportunities and risks in the future. The Group's current climate change strategy focuses on reducing its carbon footprint and increasing its use of bio-based raw materials, whilst the benefits in using its ingredients will enable more carbon to be saved than were emitted through operations and supply chain.

The impact of climate change has been considered in the preparation of these financial statements across a number of areas, including our evaluation of critical accounting estimates and judgements which are detailed below, consistent with the risks and opportunities set out on page 43. None of these risks had a material effect on the consolidated financial statements of the Group. The Group will continue developing its assessment of the impact that climate change has on the assets and liabilities recognised and presented in its financial statements.

Critical accounting judgements and key sources of estimation uncertainty

The Group's significant accounting policies under UK-adopted international accounting standards have been set by management with the approval of the Audit Committee. The application of these policies requires estimates and assumptions to be made concerning the future and judgements to be made on the applicability of policies to particular situations. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Under UK-adopted international accounting standards an estimate or judgement may be considered critical if it involves matters that are highly uncertain or where different estimation methods could reasonably have been used, or if changes in the estimate that would have a material impact on the Group's results are likely to occur from period to period.

The critical accounting judgement required when preparing the Group's accounts is as follows:

- (i) Business disposal – the Group has signed an agreement to sell the majority of its Performance Technologies and Industrial Chemicals businesses. Whilst completion of the sale is considered highly probable, the Group's assessment that the disposal group is not available for sale in its present condition is a key judgement in determining that the disposal group is not classified as an asset held for sale at 31 December 2021. The divested business, comprising five manufacturing facilities, together with associated laboratory facilities and sales operations, currently forms part of Croda's integrated operating model and work is ongoing to separate the disposal group, with completion of the transaction expected in summer 2022.

Financial statements (continued)

Group Accounting Policies (continued)

The critical accounting estimates and assumptions required when preparing the Group's accounts are as follows:

- (i) Post-retirement benefits – as disclosed in note 11, the Group's principal retirement benefit schemes are of the defined benefit type. Year end recognition of the liabilities under these schemes and the valuation of assets held to fund these liabilities require a number of significant assumptions to be made, relating to key financial market indicators such as inflation and expectations on future salary growth and asset returns. These assumptions are made by the Group in conjunction with the schemes' actuaries and the Directors are of the view that any estimation should be appropriate and in line with consensus opinion.
- (ii) Goodwill impairment – management are required to undertake an annual test for impairment of indefinite lived assets such as goodwill. Accordingly, the Group tests annually whether goodwill has suffered any impairment and the Group's goodwill value has been supported by the fair value less cost to sell or detailed value in use calculations relating to the recoverable amounts of the underlying Cash Generating Units ('CGUs'). These value in use calculations require the use of estimates to enable the calculation of the net present value of cash flow projections of the relevant CGU. The critical assumptions are as follows:
 - Terminal value growth in EBITDA (calculated as operating profit before depreciation and amortisation) – estimated at 3% unless the profile of a particular CGU warrants a different treatment.
 - Selection of appropriate market participant discount rates to reflect the risks specific to the CGU.
 - Specific cash flow projections including key assumptions on revenue growth and operating margins – generally over a five-year period unless the profile of a particular CGU warrants a longer period.

Recoverable amounts currently exceed carrying values including goodwill; however, testing did identify that reasonable possible changes in key assumptions would cause the recoverable amount of the Iberchem CGUs to be less than the carrying value. The assumptions selected and associated sensitivity analysis are disclosed in note 12. Due to the nature of the Iberchem business, including its low carbon footprint, the key assumptions were not materially impacted by the climate change risks and opportunities set out in the annual report on page 43.

Changes in accounting policy

- (i) A number of new amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2021 and have been applied in preparing these consolidated financial statements. None of these had a significant effect on the consolidated financial statements of the Group.
- (ii) New standards and interpretations not yet adopted – a number of new standards and amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2022 and have not been applied in preparing these consolidated financial statements. The Group is assessing the impact of these new standards and the Group's financial reporting will be presented in accordance with these standards from 1 January 2022 or 1 January 2023 as applicable.

Group accounts

General information

Croda International Plc is a public limited company, which is listed on the London Stock Exchange and incorporated and domiciled in the United Kingdom. It is registered in England and Wales and the address of its registered office can be found on page 172.

Subsidiaries

Subsidiaries are all entities over which the Parent Company has control. The Parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group uses the acquisition method of accounting to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. Acquisition costs are expensed as incurred.

Identifiable assets acquired, and liabilities and contingent liabilities assumed, in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the Group's share of identifiable net assets acquired is recorded as goodwill.

Intra-Group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Transactions with non-controlling interests

The Group treats transactions with non-controlling interests as transactions with the equity owners of the Group. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded as equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

Intangible assets

Goodwill

On acquisition of a business, fair values are attributed to the net assets acquired. Goodwill arises where the fair value of the consideration given for a business exceeds such net assets. Goodwill arising on acquisitions is capitalised and carried at cost less accumulated impairment losses. Goodwill is subject to impairment review, both annually and when there are indications that the carrying value may not be recoverable. For the purpose of impairment testing, assets are grouped at the lowest levels for which there are separately identifiable cash flows, known as CGUs. Goodwill is allocated to the CGU that is expected to benefit from the synergies of the acquisition. For goodwill balances where the relevant group of CGUs exceeds the size of the Group's operating segments, impairment testing is performed at the operating segment level.

If the recoverable amount of the CGU is less than the carrying value of the goodwill, an impairment loss is recognised immediately against the goodwill value. The recoverable amount of the CGU is the higher of fair value less costs to sell and value in use. Fair value less costs to sell is measured on a market-based approach using prices and other relevant information generated by market transactions. Value in use is estimated with reference to estimated future cash flows discounted to net present value using a market participant discount rate that reflects the time value of money and risks specific to the CGU. Typically, the Group's weighted average cost of capital is used as a starting point and then adjusted to reflect the risk profile of a particular CGU if warranted. The Group uses growth estimates that track below the Group's historical growth rates unless the profile of a particular CGU warrants a different treatment.

Other intangible assets arising on acquisition

On acquisition, intangible assets other than goodwill are recognised if they can be identified through being separable from the acquired entity or arising from specific contractual or legal rights.

Once recognised, such intangible assets will be initially valued using an appropriate methodology. For acquisitions in 2021 the following intangible asset types recognised and valuation methodologies applied were:

- Technology processes (relief-from-royalty and replacement cost)
- Customer relationships (income approach)
- Trade names and brands (relief-from-royalty)

Following initial recognition, the asset will be written down on a straight-line basis over its useful life, which range from 7 to 15 years for technology processes and from 6 to 20 years for trade names, brands and customer relationships. Useful lives are regularly reviewed to ensure their continuing relevance.

Research and development

Research expenditure, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is charged to the income statement in the year in which it is incurred. Internal development expenditure, whereby research findings are applied to a plan for the production of new or substantially improved products or processes, is charged to the income statement in the year in which it is incurred unless it meets the recognition criteria of IAS 38 'Intangible Assets'. Development uncertainties typically mean that such criteria are not met, most commonly because the Group can only demonstrate the existence of a market at a late stage in the product development cycle, at which point the material element of project spend has already been incurred and charged to the income statement. Where, however, the recognition criteria are met, intangible assets are capitalised and amortised over their useful economic lives from product launch.

Intangible assets relating to products in development are subject to impairment testing at each balance sheet date or earlier upon indication of impairment. Any impairment losses are written off to the income statement.

Computer software

Computer software licences covering a period of greater than a year are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives which range from 3 to 7 years.

Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes intra-Group sales. The Group recognises revenue on completion of contractual performance obligations, generally when it transfers control over a product or service to a customer.

Sale of goods

The principal activity from which the Group generates revenue is the supply of products to customers from its various manufacturing sites and warehouses, and in some limited instances from consignment inventory held on customer sites. Products are supplied under a variety of standard terms and conditions, and in each case, revenue is recognised when contractual performance obligations between the Group and the customer are satisfied. This will typically be on dispatch or delivery. When sales discount and rebate arrangements result in net variable consideration, appropriate provisions are recognised as a deduction from revenue at the point of sale. The Group typically uses the expected value method for estimating rebates, reflecting that such contracts have similar characteristics and a range of possible outcomes. The Group recognises revenue to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue will not be required.

Interest and dividend income

Interest income is recognised on a time-proportion basis using the effective interest method.

Dividend income is recognised when the right to receive payment is established.

Financial statements (continued)

Group Accounting Policies (continued)

Segmental reporting

An operating segment is a group of assets and operations engaged in providing products and services that are subject to risks or returns that are different from those of other segments. Operating segments presented in the financial statements are consistent with the internal reporting provided to the Group's Chief Operating Decision Maker, which has been identified as the Group Executive Committee.

Employee benefits

Pension obligations

The Group accounts for pensions and similar benefits under IAS 19 'Employee Benefits' (revised). In respect of defined benefit plans (pension plans that define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation), obligations are measured at discounted present value whilst plan assets are recorded at fair value. The assets and liabilities recognised in the balance sheet in respect of defined benefit pension plans are the net of plan obligations and assets. A scheme surplus is only recognised as an asset in the balance sheet when the Group has the unconditional right to future economic benefits in the form of a refund or a reduction in future contributions. For those schemes where an accounting surplus is currently recognised, the Group expects to recover the value through reduced future contributions. No allowance is made in the past service liability in respect of either the future expenses of running the schemes or for non service-related death in service benefits which may arise in the future. The operating costs of such plans are charged to operating profit and the finance costs are recognised as financial income or an expense as appropriate.

Service costs are spread systematically over the lives of employees and financing costs are recognised in the periods in which they arise. Remeasurements are recognised in the statement of comprehensive income. Payments to defined contribution schemes (pension plans under which the Group pays fixed contributions into a separate entity) are charged as an expense as they fall due.

Other post-retirement benefits

Some Group companies provide post-retirement healthcare benefits to their retirees. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment using an accounting methodology similar to that for defined benefit pension plans. Remeasurements are recognised in the statement of comprehensive income. These obligations are valued annually by independent qualified actuaries.

Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either (i) terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or (ii) providing termination benefits as a result of an offer made to encourage voluntary redundancy.

Share-based payments

The Group operates a number of cash and equity settled, share-based incentive schemes. These are accounted for in accordance with IFRS 2 'Share-based Payments', which requires an expense to be recognised in the income statement over the vesting period of the options. The expense is based on the fair value of each instrument which is calculated using the Black Scholes or binomial model as appropriate. Any expense is adjusted to reflect expected and actual levels of options vesting for non-market-based performance criteria.

Currency translations

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Sterling, which is the Company's functional and presentation currency.

Transactions and balances

Monetary assets and liabilities are translated at the exchange rates ruling at the end of the financial period. Exchange profits or losses on trading transactions are included in the Group income statement except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Group companies

The results and financial position of all the Group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (iii) all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are taken to shareholders' equity.

When a foreign operation is sold, such exchange differences are recognised in the income statement as part of the gain or loss on sale.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of temporary differences between the treatment of certain items for taxation and for accounting purposes. Temporary differences arise on differences between the carrying value of assets and liabilities in the financial statements and their tax base and primarily relate to the difference between tax allowances on tangible fixed assets and the corresponding depreciation charge, and upon the net pension fund deficit. Full provision is made for the tax effects of these differences. No provision is made for unremitted earnings of foreign subsidiaries where there is no commitment to remit such earnings.

Similarly, no provision is made for temporary differences relating to investments in subsidiaries since realisation of such differences can be controlled and is not probable in the foreseeable future. Deferred tax assets are recognised, using the balance sheet liability method, to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

All taxation is calculated on the basis of the tax rates and laws enacted or substantively enacted at the balance sheet date.

Income statement presentation

The acquisition of Avanti Polar Lipids, LLC and Fragrance Spanish Topco, S.L. (Iberchem) in 2020 increased acquisition costs and amortisation of acquired intangible assets. To avoid distorting the underlying trend in profitability, the Group adopts the definitions 'Adjusted operating profit', 'Adjusted profit before tax' and 'Adjusted earnings per share'. In each case amortisation of intangible assets arising on acquisition and exceptional items, including the respective tax effect, are excluded. The Group income statement has been produced in a columnar format to further aid this analysis.

Exceptional items

Exceptional items are those items that in the Directors' view are required to be separately disclosed by virtue of their size or incidence to enable a full understanding of the Group's financial performance. In the current year exceptional items relate to discount unwind and fair value adjustment in respect of contingent consideration, a pension curtailment gain (arising from transfer of the Dutch scheme to a collective defined contribution arrangement) and acquisition costs and fees incurred in preparation of the disposal of part of the PTIC business. Exceptional items in the prior year related to the delivery of cost saving actions announced in the 2019 full year results, discount unwind in contingent consideration and acquisition costs. Details can be found in note 3 on page 133.

Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation, with the exception of assets acquired as part of a business combination. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. The Group's policy is to write off the difference between the cost of all property, plant and equipment, except freehold land, and their residual value on a straight-line basis over their estimated useful lives.

Reviews are made annually of the estimated remaining lives and residual values of individual productive assets, taking account of commercial and technological obsolescence as well as normal wear and tear, and adjustments are made where appropriate. Under this policy it becomes impractical to calculate average asset lives exactly. However, the total lives range from approximately 15 to 40 years for land and buildings, and 3 to 25 years for plant and equipment. All individual assets are reviewed for impairment when there are indications that the carrying value may not be recoverable. The Group's 'plant and equipment' asset class predominantly relates to the value of plant and equipment at the Group's manufacturing facilities. Consequently, the Group does not seek to analyse out of this class other items such as motor vehicles and office equipment.

Impairment of non-financial assets

The Group assesses at each year end whether an asset may be impaired. If any evidence exists of impairment, the estimated recoverable amount is compared to the carrying value of the asset and an impairment loss is recognised where appropriate. The recoverable amount is the higher of an asset's value in use and fair value less costs to sell. In addition to this, goodwill is tested for impairment at least annually. Non-financial assets other than goodwill which have suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

Leases

When entering into a new contract, the Group assesses whether it is, or contains, a lease. A lease conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group recognises a right of use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date and discounted using the interest rate implicit in the lease or, more typically, the Group's incremental borrowing rate (when the implicit rate cannot be readily determined).

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee or changes in the Group's assessment of whether a purchase, extension or termination option is reasonably certain to be exercised.

The Group adopts recognition exemptions for short-term (less than 12 months) and low value leases and elects not to separate lease components from any associated fixed non-lease components.

The Group classifies payments of lease liabilities (principal and interest portions) as part of financing activities. Payments of short-term, low value and variable lease components are classified within operating activities.

Financial statements (continued)

Group Accounting Policies (continued)

Derivative financial instruments

The Group uses derivative financial instruments where deemed appropriate to hedge its exposure to interest rates and short-term currency rate fluctuations. The Group's accounting policy is set out below.

Derivative financial instruments are recorded initially at cost. Subsequent measurement depends on the designation of the instrument as either: (i) a hedge of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge); or (ii) a hedge of highly probable forecast transactions (cash flow hedge).

(i) Fair value hedge

Changes in the fair value of derivatives, for example interest rate swaps and foreign exchange contracts, that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

(ii) Cash flow hedge

The Group designates the spot element of forward foreign exchange contracts to hedge its currency risk and applies a hedge ratio of 1:1. The forward elements of the forward exchange contracts are excluded from the designation of the hedging instrument and are separately accounted for as a cost of hedging, which is recognised in equity in a cost of hedging reserve. The Group's policy is for the critical terms of the forward exchange contracts to align with the hedged item.

The Group determines the existence of an economic relationship between the hedging instrument and the hedged item based on the current, amount and timing of the respective cash flows. The Group assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting changes in the cash flows of the hedged item using the hypothetical derivative method. In these hedge relationships, the main sources of ineffectiveness are changes in the time or amount of the hedged transactions.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in equity. The gain or loss relating to the ineffective portion is recognised immediately in the income statement. Amounts accumulated in equity are recycled in the income statement in the periods when the hedged item will affect profit or loss (for instance when the forecast sale that is hedged takes place). However, when the forecast transaction that is hedged results in the recognition of a non-financial asset (for example inventory) or a liability, the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset or liability.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the income statement.

When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement.

Certain derivative instruments do not qualify for hedge accounting. Changes in the fair value of any derivative instruments that do not qualify for hedge accounting are recognised immediately in the income statement.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Trade and other payables

Trade and other payables are recognised initially at fair value. With the exception of contingent consideration and forward foreign exchange contracts, trade and other payables are subsequently measured at amortised cost using the effective interest method. Contingent consideration is measured at fair value based on the present value of the expected future payments, discounted using a risk-adjusted discount rate. Contingent consideration is remeasured at fair value at each reporting date and subsequent changes in fair value and associated discount unwind are recognised in the income statement. Forward foreign exchange contracts are initially recognised at cost and subsequently measured at fair value on a mark-to-market basis.

Inventories

Inventories are stated at the lower of cost and net realisable amount on a first in first out basis. Cost comprises all expenditure, including related production overheads, incurred in the normal course of business in bringing the inventory to its location and condition at the balance sheet date. Net realisable amount is the estimated selling price in the ordinary course of business less any applicable variable selling costs. Provision is made for obsolete, slow moving and defective inventory where appropriate. Profits arising on intra-group sales are eliminated in so far as the product remains in Group inventory at the year end.

Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, using the effective interest method, less impairment losses. A provision for impairment of trade receivables is recognised based on lifetime expected losses, but principally comprises balances where objective evidence exists that the amount will not be collectible. Such amounts are written down to their estimated recoverable amounts, with the charge being made to operating expenses.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. Cash and bank overdrafts are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts, there is an intention to settle on a net basis and interest is charged on a net basis.

Environmental, restructuring and other provisions

The Group is exposed to environmental liabilities relating to its operations and liabilities following the acquisition of Uniqema. Provisions are made immediately where a legal obligation is identified, can be quantified and it is regarded as more likely than not that an outflow of resources will be required to settle the obligation. The Group does consider the impact of discounting when establishing provisions and provisions are discounted when the impact is material and the timing of cash flows can be estimated with reasonable certainty.

Share capital

Investment in own shares

- (i) Employee share ownership trusts – shares acquired by the trustees of the employee share ownership trust (the Trustees), funded by the Company and held for the continuing benefit of the Company are shown as a reduction in equity attributable to owners of the parent. Movements in the year arising from additional purchases by the Trustees of shares or the receipt of funds due to the exercise of options by employees are accounted for within reserves and shown as a movement in equity attributable to owners of the parent in the year. Administration expenses of the trusts are charged to the Company's income statement as incurred.
- (ii) Treasury shares – where any Group company purchases the Company's equity share capital as treasury shares, the consideration paid, including any directly attributable incremental costs (net of income taxes), is deducted from equity attributable to the Company's equity holders until the shares are cancelled, reissued or disposed of. Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

Dividends

Dividends on ordinary share capital are recognised as a liability when the liability is irrevocable. Accordingly, final dividends are recognised when approved by shareholders and interim dividends are recognised when paid.

Investments

Investments in equity securities are measured at fair value, with movements in the fair value being recognised in the income statement or equity on an instrument by instrument basis. Investments in associates are initially recorded at cost and subsequently adjusted for the Group's share of results. Investments are subject to impairment testing at each balance sheet date or earlier upon indication of impairment.

Financial statements (continued)

Notes to the Group Accounts

1. Segmental analysis

The Group's sales, marketing and research activities are organised into four global market sectors, being Consumer Care, Life Sciences, Performance Technologies and Industrial Chemicals. These are the segments for which summary management information is presented to the Group's Executive Committee, which is deemed to be the Group's Chief Operating Decision Maker. A review of each sector can be found within the Strategic Report on pages 24 to 29.

There is no material trade between segments. Segmental results include items directly attributable to a specific segment as well as those that can be allocated on a reasonable basis.

	2021 £m	Restated 2020 £m
Income statement		
Revenue		
Consumer Care	763.0	527.8
Life Sciences	572.3	392.5
Performance Technologies	439.5	373.6
Industrial Chemicals	114.8	96.4
Total Group revenue	1,889.6	1,390.3
Adjusted operating profit		
Consumer Care	188.5	146.5
Life Sciences	208.5	124.5
Performance Technologies	64.5	48.9
Industrial Chemicals	7.1	(0.3)
Total Group operating profit (before exceptional items and amortisation of intangible assets arising on acquisition)	468.6	319.6
Exceptional items and amortisation of intangible assets arising on acquisition ¹	(30.4)	(29.6)
Total Group operating profit	438.2	290.0

¹ Relates to Consumer Care £20.5m (2020: £13.5m), Life Sciences £7.5m (2020: £12.2m), Performance Technologies £1.8m (2020: £3.6m) and Industrial Chemicals £0.6m (2020: £0.3m)

As announced in the 2020 Annual Report the Group has revised the composition of its operating segments. Accordingly, the Group has restated the previously reported segment information for the year ended 31 December 2020 and aligned this with the information that is regularly presented to the Group's Executive Committee.

In the following table, revenue has been disaggregated by sector and destination. This is the primary management information that is presented to the Group's Executive Committee.

	Europe, Middle East & Africa £m	North America £m	Latin America £m	Asia £m	Total £m
Revenue 2021					
Consumer Care	300.3	210.9	68.6	183.2	763.0
Life Sciences	266.3	167.2	60.9	77.9	572.3
Performance Technologies	209.8	102.1	22.4	105.2	439.5
Industrial Chemicals	48.9	13.0	2.4	50.5	114.8
Total Group revenue	825.3	493.2	154.3	416.8	1,889.6
Revenue 2020 (restated)					
Consumer Care	178.1	172.0	55.0	122.7	527.8
Life Sciences	164.7	113.2	54.5	60.1	392.5
Performance Technologies	177.0	90.1	20.1	86.4	373.6
Industrial Chemicals	42.6	11.7	2.0	40.1	96.4
Total Group revenue	562.4	387.0	131.6	309.3	1,390.3

	2021 £m	Restated 2020 £m
Depreciation and amortisation (before amortisation of intangible assets arising on acquisition)		
Consumer Care	31.7	24.7
Life Sciences	22.1	19.9
Performance Technologies	19.4	18.8
Industrial Chemicals	5.8	4.8
Total Group	79.0	68.2

The Group manages its business segments on a global basis. The operations are based in the following geographical areas: Europe, with manufacturing sites in the UK, France, the Netherlands, Italy, Spain, Finland and Denmark; North America, with manufacturing sites in the US; Latin America, with manufacturing sites in Brazil, Argentina, Colombia and Mexico; Asia, with manufacturing sites in Singapore, Japan, India, China, Indonesia, Malaysia and Australia; and South Africa and Tunisia.

The Group's revenue from external customers in the UK is £52.3m (2020: £46.2m), in Germany is £196.0m (2020: £104.7m), in China is £161.4m (2020: £105.2m), in the US is £455.3m (2020: £355.4m) and the total revenue from external customers from other countries is £1,024.6m (2020: £778.8m). No single external customer represents more than 4% of the total revenue of the Group. The total of non-current assets other than financial instruments, retirement benefit assets and deferred tax assets located in the UK is £208.2m (2020: £178.9m) and in other countries is £1,290.7m (2020: £1,252.2m). Goodwill has not been split by geography as this asset is not attributable to a geographical area.

2. Operating costs

	2021 £m	2020 £m
Analysis of net operating expenses by function:		
Distribution costs	93.0	71.7
Administrative expenses	407.7	270.4
	500.7	342.1

Additional information on the nature of operating expenses, including depreciation and employee costs, is provided in note 3.

3. Profit for the year

	2021 £m	2020 £m
The Group profit for the year is stated after charging:		
Depreciation and amortisation (notes 12, 13 & 14)	113.3	81.8
Impairments (exceptional)	–	1.4
Impairments (non-exceptional)	1.1	–
Staff costs (note 9)	411.9	295.5
Redundancy costs (non-exceptional)	0.8	0.2
Redundancy costs (exceptional)	–	1.8
Inventories – cost recognised as expense in cost of sales	950.7	758.2
Inventories – provision movement in the year	6.7	3.8
Research and development	58.7	38.2
Net foreign exchange	0.8	2.1
Bad debt charge (note 18)	0.4	0.5

	2021 £m	2020 £m
Adjustments:		
Exceptional items – operating profit		
Business acquisitions and disposal costs	(13.5)	(11.7)
Redundancy, restructuring and impairments	–	(4.3)
Pension curtailment gain	11.2	–
Fair value movement on contingent consideration	6.2	–
Exceptional items – financial costs		
Unwind of discount on contingent consideration	(3.3)	(1.5)
Exceptional items	0.6	(17.5)
Amortisation of intangible assets arising on acquisition	(34.3)	(13.6)
Total adjustments	(33.7)	(31.1)

The exceptional items in the current year reflects discount unwind and fair value adjustment both in respect of contingent consideration, a pension curtailment gain (arising from transfer of the Dutch scheme to a collective defined contribution arrangement) and acquisition costs and fees incurred in preparation of the disposal of part of the PTIC business. Movements in contingent consideration have been presented as exceptional as they are not directly representative of the underlying business performance in the period, and therefore this presentation provides a meaningful basis to make comparisons between reporting periods. The pension curtailment gain and business acquisition and disposal costs have been presented as exceptional due to their size and one-off nature. The exceptional items in the prior year related to the delivery of cost saving actions announced in the 2019 full year results, discount unwind in contingent consideration and acquisition costs.

£65m 2.46% fixed rate 8 year note	1.6	1.6
US\$60m 3.70% fixed rate 10 year note	1.6	1.7
Net interest on retirement benefit liabilities	0.3	1.2
Provision against non-operating loan	2.5	–
Interest on lease liabilities	2.2	1.5
Other bank loans and overdrafts	2.2	1.2
Unwind of discount on contingent consideration	3.3	1.5
	28.2	21.0
Financial income		
Bank interest receivable and similar income	(1.5)	(0.5)
Net financial costs	26.7	20.5

5. Tax

	2021 £m	2020 £m
(a) Analysis of tax charge for the year		
UK current corporate tax	11.5	13.2
Overseas current corporate taxes	95.0	52.1
Current tax	106.5	65.3
Deferred tax (note 6)	(17.8)	2.6
	88.7	67.9
(b) Tax on items charged/(credited) to other comprehensive income or equity		
Deferred tax on remeasurement of post-retirement benefits (OCI)	8.3	9.7
Deferred tax on share-based payments (equity)	(2.4)	(0.9)
Deferred tax on provisions (OCI)	(0.2)	0.3
	5.7	9.1
(c) Factors affecting the tax charge for the year		
Profit before tax	411.5	269.5
Tax at the standard rate of corporation tax in the UK, 19.0% (2020: 19.0%)	78.2	51.2
Effect of:		
Tax rate changes	7.1	(1.5)
Prior year over-provisions	(16.3)	(3.2)
Tax cost of remitting overseas income to the UK	2.2	1.5
Expenses and write-offs not deductible for tax purposes	7.3	1.8
Utilisation of unrecognised tax losses	-	(1.4)
Net effect of higher overseas tax rates	10.2	19.5
	88.7	67.9

The adjusted effective corporate tax rate before exceptional items of 21.2% (2020: 24.1%) is higher than the UK's standard tax rate of 19.0%. The reported effective corporate tax rate after exceptional items is 21.6% (2020: 25.2%). This year's tax charge benefitted from a one-off settlement of a previous uncertain tax position.

Croda operates in many tax jurisdictions other than the UK, both as a manufacturer and distributor, with the majority of those jurisdictions having rates higher than the UK; considerably so in some cases. It is the exposure to these different tax rates that increases the effective tax rate above the UK standard rate and also makes it difficult to forecast the Group's future tax rate with any certainty given the unpredictable nature of exchange rates, individual economies and tax legislators. Other than the exposure to higher overseas tax rates, there are no significant adjustments between the Group's expected and reported tax charge based on its accounting profit. Given the global nature of the Group, and the number of associated cross-border transactions between connected parties, we are exposed to potential adjustments to the price charged for those transactions by tax authorities. However, the Group carries appropriate provisions relating to the level of risk.

Legislation to increase the UK standard rate of corporation tax from 19% to 25% was substantively enacted on 24 May 2021, effective from 1 April 2023. The calculation of deferred tax balances in the UK have been revised accordingly. Overseas tax is calculated at the rates prevailing in the respective jurisdictions.

Financial statements (continued)

Notes to the Group Accounts (continued)

6. Deferred tax

	2021 £m	2020 £m
The deferred tax balances included in these accounts are attributable to the following:		
Deferred tax assets		
Retirement benefit liabilities	6.1	11.1
Provisions	42.1	25.5
Gross deferred tax asset	48.2	36.6
Offset with deferred tax liabilities	(34.7)	(22.1)
Net deferred tax asset	13.5	14.5
Deferred tax liabilities		
Accelerated capital allowances	97.1	93.1
Revaluation gains	1.9	1.9
Acquired intangibles	77.9	82.3
Retirement benefit assets	8.2	4.1
Other	1.0	1.0
Gross deferred tax liability	186.1	182.4
Offset with deferred tax assets	(34.7)	(22.1)
Net deferred tax liability	151.4	160.3
The movement on deferred tax balances during the year is summarised as follows:		
Deferred tax credited/(charged) through the income statement		
Continuing operations before adjustments	13.9	(3.6)
Adjustments and exceptional items	3.9	1.0
Deferred tax charged directly to other comprehensive income or equity (note 5(b))	(5.7)	(9.1)
Acquisitions	(8.9)	(64.8)
Exchange differences	4.7	1.3
	7.9	(75.2)
Net balance brought forward	(145.8)	(70.6)
Net balance carried forward	(137.9)	(145.8)
Deferred tax (charged)/credited through the income statement relates to the following:		
Retirement benefit obligations	(0.7)	1.5
Accelerated capital allowances	(2.1)	(10.3)
Provisions	13.9	4.1
Other	6.7	2.1
	17.8	(2.6)

Deferred tax is calculated in full on temporary differences under the balance sheet liability method at rates appropriate to each subsidiary. Deferred tax expected to reverse in the year to 31 December 2022 and beyond has been measured using the rate due to prevail in the year of reversal.

Deferred tax assets have been recognised in all material cases where such assets arise, as it is probable the assets will be recovered. At 31 December 2021, no deferred tax asset has been recognised in respect of £32.6m of losses across the Group as it is not considered probable that there will be future taxable profits against which these losses can be offset.

Deferred tax is only recognised on the unremitted earnings of overseas subsidiaries to the extent that remittance is expected in the foreseeable future. If all earnings were remitted, an additional £9.3m (2020: £6.6m) of tax would be payable.

All movements on deferred tax balances have been recognised in the income statement with the exception of the items shown in note 5(b).

Of the gross deferred tax assets, £10.4m are expected to reverse within 12 months of the balance sheet date. No material reversal of any of the deferred tax liability is expected within 12 months of the balance sheet date based on the Group's current capital expenditure programme.

7. Earnings per share

	2021 £m	2020 £m
Adjusted profit after tax for the year attributable to owners of the parent	348.8	228.2
Exceptional items and amortisation of intangible assets	(33.7)	(31.1)
Tax impact of exceptional items and amortisation of intangible assets	5.7	4.5
Profit after tax for the year attributable to owners of the parent	320.8	201.6
	Number m	Number m
Weighted average number of 10.61p (2020: 10.61p) ordinary shares in issue for basic calculation	139.5	130.0
Deemed issue of potentially dilutive shares	0.3	0.2
Average number of 10.61p (2020: 10.61p) ordinary shares for diluted calculation	139.8	130.2
	Pence	Pence
Basic earnings per share	230.0	155.1
Adjusted basic earnings per share	250.0	175.5
Diluted earnings per share	229.5	154.8
Adjusted diluted earnings per share	249.5	175.3

Basic earnings per share is calculated by dividing the profit after tax attributable to owners of the parent by the weighted average number of ordinary shares in issue during the year, excluding those shares held in treasury or employee share trusts (note 25). Shares held in employee share trusts are treated as cancelled because, except for a nominal amount, dividends have been waived.

For diluted earnings per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all potentially dilutive ordinary shares.

Additional earnings per share calculations are included above to give a better indication of the Group's underlying performance.

8. Dividends

	Pence per share	2021 £m	Pence per share	2020 £m
Ordinary				
Interim				
2020 interim, paid October 2020	–	–	39.5	50.8
2021 interim, paid October 2021	43.5	60.6	–	–
Final				
2019 final, paid May 2020	–	–	50.5	65.0
2020 final, paid June 2021	51.5	71.8	–	–
	95.0	132.4	90.0	115.8
Preference (paid June and December)		0.1		0.1
		132.5		115.9

The Directors are recommending a final dividend of 56.5p per share, amounting to a total of £78.8m, in respect of the financial year ended 31 December 2021.

Subject to shareholder approval, the dividend will be paid on 6 June 2022 to shareholders registered on 6 May 2022 and has not been accrued in these financial statements. The total dividend for the year ended 31 December 2021 will be 100.0p per share amounting to a total of £139.4m.

Notes to the Group Accounts (continued)

9. Employees

	2021 £m	2020 £m
Group employment costs including Directors		
Wages and salaries	288.0	215.7
Share-based payment charges (note 23)	41.3	13.6
Social security costs	49.7	36.6
Post-retirement benefit costs	32.9	29.6
Redundancy costs	0.8	2.0
	412.7	297.5

	2021 Number	2020 Number
Average employee numbers by function		
Production	3,766	3,044
Selling and distribution	1,342	1,189
Administration	929	689
	6,037	4,922

As required by the Companies Act 2006, the figures disclosed above are the weighted averages based on the number of employees including Executive Directors. At 31 December 2021, the Group had 6,135 (2020: 5,684) employees in total.

10. Directors' and key management compensation

Detailed information concerning Directors' remuneration, interests and options is shown in section D of the Directors' Remuneration Report, which is subject to audit, on pages 97 to 105 forming part of the Annual Report and Accounts.

Aggregate compensation for key management, being the Directors and members of the Group Executive Committee, was as follows:

	2021 £m	2020 £m
Key management compensation including Directors		
Short-term employee benefits	8.1	4.8
Post-retirement benefit costs	0.1	0.1
Share-based payment charge	6.6	1.2
	14.8	6.1

11. Post-retirement benefits

The table below summarises the Group's net year end post-retirement benefits balance sheet positions and activity for the year.

	2021 £m	2020 £m
Balance sheet:		
Retirement benefit assets	35.3	17.6
Retirement benefit liabilities	(27.4)	(49.9)
Net asset/(liability) in Group balance sheet	7.9	(32.3)
Net balance sheet assets/(liabilities) for:		
Defined pension benefits	21.4	(17.2)
Post-employment medical benefits	(13.5)	(15.1)
	7.9	(32.3)
Income statement charge included in profit before tax for:		
Defined pension benefits	13.5	23.9
Post-employment medical benefits	0.7	0.8
	14.2	24.7
Remeasurements included in other comprehensive income for:		
Defined pension benefits	(38.5)	(52.5)
Post-employment medical benefits	(2.1)	1.2
	(40.6)	(51.3)

Defined benefit pension schemes

The Group operates defined benefit pension schemes in the UK, US, Netherlands and several other territories under broadly similar regulatory frameworks. All of the Group's final salary type pension schemes (which provide benefits to members in the form of a guaranteed level of pension payable for life based on salary in the final years leading up to retirement) are closed to future service accrual with the exception of a small number of 'grandfathered' employees in the US scheme.

The UK scheme operated on a final salary basis until 5 April 2016, following which the scheme changed to a Career Average Revalued Earnings (CARE) defined benefit scheme, with annual pensionable earnings capped and pensions in payment indexed based on CPI (previously RPI) for service accrued from 6 April 2016. This change is expected to reduce the future comparable cost and risk attached to the UK scheme. The US scheme operates a cash balance pension scheme that provides a guaranteed rate of return on pension contributions until retirement (other than for 'grandfathered' employees). From 1 October 2017 the US scheme was closed to new joiners, who will receive defined contribution benefits. The US plans also do not generally receive inflationary increases once in payment. With the exception of this difference in inflationary risk, the Group's main defined benefit pension schemes continue to face materially similar risks, as described on pages 142 and 143.

The majority of benefit payments are from trustee administered funds; however, there are also a number of unfunded plans where the relevant Group company meets the benefit payment obligation as it falls due.

Plan assets held in trusts are governed by local regulations and practice in each country, as is the nature of the relationship between the Group and the trustees (or equivalent) and their composition. Responsibility for governance of the schemes, including investment decisions and contribution schedules, predominantly lies with the particular scheme's board of trustees with appropriate input from the relevant Group company. The board of trustees must be composed of representatives in accordance with each scheme's regulations and any relevant legislation.

During the period the Group's primary Netherlands scheme was converted into a collective defined contribution scheme for both past and future service, as allowed under local regulations and as agreed with the representative trade unions. This change resulted in the settlement of the defined benefit scheme's assets and liabilities and a corresponding curtailment gain of £11.2m on cessation of defined benefit accrual, which has been recognised in the Group income statement. All parties had formally agreed to the settlement by 30 November 2021, therefore the settlement accounting is based on the valuation of the scheme assets and liabilities at this date. Under the new scheme, employer contributions have been fixed for the next two years initially, and the level thereafter will be subject to agreement with employees and the trade unions. The employer is not exposed to demographic and financial risks, as the benefits provided will be those that can be afforded by the scheme only, without recourse to the employer, therefore this scheme is accounted for as a defined contribution scheme.

Contributions paid in		
Employee	3.0	2.9
Benefits paid	(46.8)	(46.2)
Exchange differences on overseas schemes	(7.3)	4.2
	1,318.7	1,554.0
Movement in fair value of schemes' assets in the year:		
Opening balance	1,536.8	1,390.8
Interest income	20.1	26.5
Remeasurements		
Return on scheme assets, excluding amounts included in financial expenses	26.9	143.5
Contributions paid in		
Employee	3.0	2.9
Employer	13.6	15.4
Settlements	(207.1)	–
Benefits paid out	(46.8)	(46.2)
Exchange differences on overseas schemes	(6.4)	3.9
	1,340.1	1,536.8

As at the balance sheet date, the present value of retirement benefit obligations comprised approximately £351m in respect of active employees, £367m in respect of deferred members and £601m in relation to members in retirement.

Total employer contributions to the schemes in 2022 are expected to be £10.7m.

The actuarial assumptions were as follows:

	2021 UK	2021 US	2021 Netherlands*	2020 UK	2020 US	2020 Netherlands
Discount rate	1.8%	2.8%	1.1%	1.3%	2.4%	0.8%
Inflation rate – RPI	3.2%	2.5%	2.0%	2.8%	2.5%	1.8%
Inflation rate – CPI	2.8%	n/a	n/a	2.4%	n/a	n/a
Rate of increase in salaries	4.8%	3.5%	2.4%	4.4%	3.5%	2.4%
Rate of increase for pensions in payment	3.1%	n/a	1.8%	2.7%	n/a	1.3%
Duration of liabilities (i.e. life expectancy) (years)	18.9	11.0	n/a	19.6	11.2	22.3
Remaining working life	9.6	10.6	n/a	9.6	10.6	12.4

* Actuarial assumptions as at the settlement date

Mortality assumptions are based on country-specific mortality tables and where appropriate allow for future improvements in life expectancy. Where credible data exists, actual plan experience is taken into account. No adjustments have been made to mortality assumptions as at 31 December 2021 to reflect the potential effects of COVID-19 as the actual plan experience is not yet available and as it is too soon to make a judgement on the impact of the pandemic on future mortality improvements. The mortality experience analysis for the scheme will be carried out in the future as part of the 30 September 2023 funding valuation for the UK Croda Pension Scheme. Applying the mortality tables adopted, the expected future average lifetime of members currently at age 65 and members at age 65 in 20 years' time is as follows:

	UK	US	Current age 65 Netherlands	UK	US	Age 65 in 20 years Netherlands
Male	20.1	20.9	21.1	21.4	22.1	22.6
Female	23.3	22.8	25.0	24.7	23.9	26.4

The sensitivity of the defined benefit obligation to changes in the significant assumptions is as follows:

	Impact on retirement benefit obligation		
	Sensitivity	Of increase	Of decrease
Discount rate	0.5%	-8.5%	9.7%
Inflation rate	0.5%	6.5%	-6.0%
Mortality (assumes a one-year change in life expectancy)	1 year	4.9%	-4.8%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting year) has been applied as when calculating the retirement benefit obligation recognised in the Group balance sheet. The weighted average duration of the defined benefit obligation is 18.1 years (2020: 19.2 years).

The assets in the schemes comprised:

	2021 £m	2021 %	2020 £m	2020 %
Quoted				
Equities	188.2	14%	277.9	18%
Government bonds	590.8	44%	674.0	44%
Corporate bonds	70.6	5%	124.2	8%
Other quoted securities	28.7	2%	31.3	2%
Unquoted				
Cash and cash equivalents	73.1	5%	77.5	5%
Real estate (pooled investment vehicles)	61.6	5%	56.7	4%
Derivatives	10.0	1%	6.4	0%
Other	317.1	24%	288.8	19%
	1,340.1	100%	1,536.8	100%

Derivatives presented above represent the scheme's net position on Government bond repurchase agreements and other swap contracts (valued on a mark-to-market basis) which form part of the scheme's liability driven investment (LDI) portfolio. The non-derivative assets in the LDI portfolio have been presented in the relevant asset category. Other investments include; a fund of hedge funds, which consists of a fund of multiple investment managers across both traditional markets such as equities and credit and also more specialist diversified strategies; infrastructure type investments that hold assets linked to the value and income from UK and overseas infrastructure.

Financial statements (continued)

Notes to the Group Accounts (continued)

11. Post-retirement benefits continued

Post-employment medical benefits

The Group operates an unfunded post-employment medical benefit scheme in the US. The method of accounting, significant assumptions and the frequency of valuations are similar to those used for defined benefit pension schemes set out above with the addition of actuarial assumptions relating to the long-term increase in health care costs of 5.0% a year (2020: 5.0%).

The amounts recognised in the balance sheet in respect of this scheme are as follows:

	2021 £m	2020 £m
Present value of unfunded obligations		
US scheme	13.5	15.1
	2021 £m	2020 £m
Movement in present value of retirement benefit obligations in the year:		
Opening balance	15.1	14.1
Current service cost	0.4	0.4
Interest cost	0.3	0.4
Remeasurements – change in demographic assumptions	–	(0.2)
Remeasurements – change in financial assumptions	(1.2)	1.7
Remeasurements – experience gains	(0.9)	(0.3)
Benefits paid	(0.3)	(0.4)
Exchange differences on overseas schemes	0.1	(0.6)
	13.5	15.1

Pension and medical benefits – risks and volatility

Through its defined benefit pension schemes and post-employment medical schemes, the Group is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The schemes' liabilities are calculated using a discount rate set with reference to corporate bond yields; if scheme assets underperform this yield, a deficit will be created. The schemes hold a significant proportion of equities, which are expected to outperform corporate bonds in the long term while providing volatility and risk in the short term. As the schemes mature, the Group intends to reduce the level of investment risk by investing more in assets that better match the liabilities. However, the Group and the pension trustees (Trustees) believe that due to the long term nature of the scheme liabilities and the strength of the supporting Group, a level of continuing equity investment is an appropriate element of the Group's long term strategy to manage the schemes efficiently. See below for more details on the Group's asset-liability matching strategy.

Changes in bond yields

A decrease in corporate bond yields will increase scheme liabilities, although this will be partially offset by an increase in the value of the schemes' bond holdings.

Inflation risk

Some of the Group's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities. However, the level of inflationary increases are usually capped to protect the scheme against extreme inflation. The majority of the schemes' assets are either unaffected by inflation in the case of fixed interest bonds or loosely correlated in the case of equities, meaning that an increase in inflation will thus increase the deficit. In the US schemes, the pensions in payment are not linked to inflation, so this is a less material risk.

Life expectancy

The majority of the schemes' obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the schemes' liabilities. This is particularly significant in the UK scheme, where inflationary increases result in higher sensitivity to changes in life expectancy. In the case of the funded schemes, the Group ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are cognisant of the obligations under the pension schemes. Within this framework, the Group's ALM objective is to match a portion of assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency. The Group and Trustees actively monitor how the duration and the expected yield of the investments are matching the expected cash outflows arising from the pension obligations. The Group has not changed the processes used to manage its risks from previous years.

Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets. A significant portion of assets in 2021 consists of equities and bonds, although the schemes also invest in property, cash and infrastructure funds. The Group believes that equities offer the best returns over the long term with an acceptable level of risk. The UK scheme makes use of a portfolio of derivative instruments to mitigate interest rate and inflation risk.

The latest triennial valuation of the UK scheme was completed as at 30 September 2020. As a result, no deficit funding payments to this scheme are required prior to completion of the next triennial valuation (as at 30 September 2023). The funding review of our US scheme is undertaken annually. As at 1 December 2020 the scheme was 142.8% funded.

The expected distribution of the timing of discounted benefit payments is as follows:

	Less than a year £m	Between 1–2 years £m	Between 2–5 years £m	Beyond 5 years £m	Total £m
Pension benefits	40.4	40.7	133.5	1,104.1	1,318.7
Post-employment medical benefits	0.5	0.5	1.6	10.9	13.5
	40.9	41.2	135.1	1,115.0	1,332.2

Notes to the Group Accounts (continued)

12. Intangible assets continued

Impairment testing for CGUs containing goodwill

The Group's goodwill balance predominantly relates to the value of commercial and other synergies arising from the combination of acquired businesses with Croda's established global sales, marketing and R&D networks. This goodwill is allocated to the Group's Cash Generating Units (CGUs) expected to benefit from that combination based on the smallest identifiable group of assets that generate independent cash inflows.

As discussed in the accounting policies note on page 127, goodwill is tested at each year end for impairment with reference to the relevant CGU's recoverable amount compared to the unit's carrying value including goodwill. Assets are grouped at the lowest level for which there are separately identifiable cash flows relevant to the acquisition generating the goodwill. The recoverable amount is based on the higher of fair value less cost to sell and value in use calculations using discounted cash flow projections with the following key assumptions:

- Terminal value growth rates – set for each CGU with reference to the long-term growth rate for the market and territory in which the CGU operates
- Discount rate – set using a weighted average cost of capital adjusted for the specific risk profile of each CGU
- Cash flow projections – based on key assumptions including revenue growth, operating margins and forecast period.

The carrying amount of goodwill is allocated to CGUs as follows:

	2021			2020		
	Standalone CGUs £m	Allocated goodwill £m	Total £m	Standalone CGUs £m	Allocated goodwill £m	Total £m
Consumer Care	385.4	210.6	596.0	390.4	214.7	605.1
Life Sciences	151.2	69.5	220.7	156.6	69.8	226.4
Performance Technologies	24.3	4.4	28.7	24.3	4.5	28.8
Industrial Chemicals	6.6	–	6.6	6.4	–	6.4
	567.5	284.5	852.0	577.7	289.0	866.7

The allocated goodwill primarily relates to £59m (2020: £63m) associated with the 2020 acquisition of Iberchem as it relates to revenue synergies with Croda's existing Consumer Care business and £192m (2020: £192m) associated with the 2006 acquisition of Uniqema (with all other balances individually less than £10m). Due to the geographical and operational scale of the Uniqema acquisition, this goodwill balance is tested for impairment at an operating segment level. Standalone CGUs operate independently of the Group's core regional operating assets, are capable of generating largely independent cash inflows and are therefore annually tested separately for impairment.

For impairment testing performed at an operating segment level, cash flow projections are based on the Group's current year results and a growth rate of 3% (an appropriate view based on past experience reflecting the market and territories in which the Group operates), discounted using a weighted average cost of capital, which for these purposes has been calculated to be approximately 8.5% pre-tax (2020: 8.3%). No reasonably possible changes in key assumptions would cause the recoverable amount of the operating segments to be less than their carrying value. Based on the testing performed, no impairment has been recognised for the year ended 31 December 2021.

Standalone CGUs

The carrying amount of goodwill is allocated to Standalone CGUs as follows:

	2021 £m	2020 £m
Incotec	67.6	72.1
Biosector	24.6	26.2
Sipo	22.1	21.3
Ionphase	6.5	7.0
Rewitec	2.3	2.4
Avanti	59.0	58.3
Iberchem – Fragrances	242.2	258.5
Iberchem – Flavours	123.6	131.9
Alban Muller	6.3	–
Parfex	13.3	–
	567.5	577.7

For impairment testing performed at a Standalone CGU level, the recoverable amount for Sipo, Ionphase and Rewitec CGUs was based on fair value less cost to sell as they form part of the Performance Technologies and Industrial Chemicals business disposal. For other Standalone CGUs the recoverable amount was based on value in use calculations. Incotec and Avanti cash flow projections have been based on specific estimates for five years, with Biosector and Iberchem CGUs using 10-year projections to better reflect the industry and territory in which they operate and the period through to when they are expected to reach a steady state of operation. Unless otherwise stated, these cash flow projections assume an appropriate view of past experience, specifically that the market share will not change significantly and that gross and operating margins will remain broadly constant. The terminal value growth rates and discount rates applied in these CGU level calculations are set out below:

	2021	Terminal value growth rate 2020	2021	Pre-tax discount rate 2020
Incotec	3.0%	3.0%	8.9%	8.5%
Biosector	3.0%	3.0%	11.9%	11.0%
Avanti	3.0%	n/a	11.0%	n/a
Iberchem – Fragrances	3.0%	n/a	10.5%	n/a
Iberchem – Flavours	3.0%	n/a	10.4%	n/a

Based on the annual impairment testing performed, no impairment has been recognised for the year ended 31 December 2021, and all Standalone CGUs remain on track to perform to our long-term expectations. In forming this conclusion, the Directors have reviewed sensitivity analysis which considered all reasonably possible downsides on key assumptions, both individually and in combination, and considered whether these would give rise to an impairment. This analysis concluded that no reasonably possible changes in key assumptions would cause the recoverable amount of the Standalone CGUs to be less than the carrying value, other than for the Iberchem CGUs.

For the Iberchem CGUs, the assumptions underpinning the cash flow projections used in the value in use calculation reflect delivery of the acquisition business plan, which the business remains on track to achieve in the medium to long term. These projections use an appropriate view of past experience, specifically that operating margins will improve and sales growth targets will be achieved resulting in approximately 10% compound average growth rates ('CAGR') at a sales level and operating profit level over the period. The estimated recoverable amount of the CGUs exceeded their carrying value by approximately £27m (Fragrances: £17m, Flavours: £10m) and therefore the Directors concluded that no impairment was required; however, the calculations are sensitive to changes in key assumptions. The key assumptions considered by the Directors, where a reasonably possible change could give rise to an impairment, were the projection period operating profit CAGR, terminal value growth rate and discount rate. If the Fragrances/Flavours operating profit CAGR assumptions were reduced by 0.4%/0.6% or the pre-tax discount rates increased by 0.2%/0.3%, then the CGUs' recoverable amount would be reduced to a level comparable with the carrying value. A 1% decrease in the terminal value growth rate, which, although not management's current expectation, is considered to be reasonably possible, would lead to an impairment charge of £45m (Fragrances: £32m, Flavours: £13m).

Goodwill arising in the year was assessed for impairment with reference to the consideration paid and no impairment has been recognised. This goodwill will be subject to the same annual review process commencing the year after initial recognition. Parfex goodwill will be tested alongside the Iberchem – Fragrances CGU in line with the level at which goodwill is monitored.

Lease liabilities

	2021 £m	2020 £m
Lease liabilities included in the Group balance sheet		
Current	12.2	10.7
Non-current	78.3	71.0
	90.5	81.7

A maturity analysis of contractual undiscounted cash flows relating to lease liabilities is presented within note 20.

In addition to the lease liabilities recognised at 31 December 2021 the Group has committed to new lease contracts, commencing in 2022, with a total discounted value of £0.8m.

Financial statements (continued)

Notes to the Group Accounts (continued)

14. Leases continued

Amounts recognised in the Group income statement

	2021 £m	2020 £m
Interest on lease liabilities	2.2	1.5
Expenses relating to short-term leases	0.3	0.5
Expenses relating to low value leases, excluding short-term leases of low value assets	0.6	0.1
Expenses relating to variable lease components	0.5	0.4
Depreciation of right of use assets	13.2	10.6
Impairment of right of use assets	–	0.3
Profit on disposal of right of use assets	(0.1)	(0.1)
	16.7	13.3

Total cash outflow for leases

	2021 £m	2020 £m
Payment of lease liabilities	14.4	7.6
Payment of short-term, low value and variable lease components	1.4	1.0
	15.8	8.6

15. Future commitments

	2021 £m	2020 £m
Group capital projects		
At 31 December the Directors had authorised the following expenditure on capital projects:		
Contracted, but not provided for		
Property, plant and equipment	19.3	41.1
Intangible assets	0.8	1.8
Authorised, but not contracted for		
Property, plant and equipment	106.4	72.3
Intangible assets	3.7	3.6
	130.2	118.8

16. Investments

The amounts recognised in the balance sheet are as follows:

	2021 £m	2020 £m
Associate	–	1.8
Other investments	3.3	3.4
	3.3	5.2

During the year, the Group impaired the carrying value of its minority shareholding in Cutitronics Limited resulting in a charge to the income statement of £1.1m. There have been no material changes in other investments during the year. All assets recognised as other investments on the Group balance sheet are non-quoted equity securities measured at fair value.

The amounts recognised within administrative expenses in the income statement are as follows:

	2021 £m	2020 £m
Share of loss of associate	0.7	1.1
Impairment of associate	1.1	–
	1.8	1.1

17. Inventories

	2021 £m	2020 £m
Raw materials	121.8	63.9
Work in progress	56.0	39.8
Finished goods	265.2	198.9
	443.0	302.6

The Group consumed £950.7m (2020: £758.2m) of inventories during the year.

18. Trade and other receivables

	2021 £m	2020 £m
Amounts falling due within one year		
Trade receivables	280.3	241.0
Less: provision for impairment of receivables	(2.9)	(2.5)
Trade receivables – net	277.4	238.5
Other receivables	45.9	41.6
Prepayments	14.6	9.8
	337.9	289.9

The ageing of the Group's year end overdue receivables against which no provision has been made is as follows:

	2021 £m	2020 £m
Not impaired		
Less than three months	39.1	29.5
Three to six months	6.3	5.2
Over six months	1.1	4.4
	46.5	39.1

The provision for impairment of receivables principally relates to customers in unexpectedly difficult economic circumstances. The overdue receivables against which no provision has been made relate to a number of customers for whom there is no recent history of default, nor any other indication that settlement will not be forthcoming. The other classes within trade and other receivables do not contain impaired assets and are considered to be fully recoverable. Overall, the impact from COVID-19 on the Group's provision for impairment of trade receivables has been immaterial.

The carrying amounts of the Group's receivables are denominated in the following currencies:

	2021 £m	2020 £m
Sterling	17.2	11.9
US Dollar	112.0	75.5
Euro	106.4	105.4
Other	102.3	97.1
	337.9	289.9

Movements on the Group's provision for impairment of trade receivables are as follows:

	2021 £m	2020 £m
At 1 January	2.5	2.2
Charged to income statement	0.4	0.5
Net write-off of uncollectible receivables	–	(0.2)
At 31 December	2.9	2.5

Amounts charged to the income statement are included within administrative expenses.

Financial statements (continued)

Notes to the Group Accounts (continued)

19. Trade and other payables

	2021 £m	2020 £m
Trade payables	133.2	97.8
Taxation and social security	15.7	10.3
Other payables	62.8	37.6
Accruals and deferred income	132.5	83.8
Contingent consideration	26.1	38.1
	370.3	267.6

All trade payables are payable within one year. Included in the above are balances payable after one year of £8.5m (2020: £26.1m) contingent consideration and £3.8m (2020: £1.0m) other payables. During the period, contingent consideration has decreased by £6.2m due to fair value movements and £9.2m due to payments, increasing by £3.3m for the unwind of discounting and £0.1m for foreign exchange. Fair value movements in the year reflect the latest estimate of future revenue forecasts for applicable products. As at 31 December 2021, the undiscounted fair value of contingent consideration in respect of the Avanti acquisition was £26.9m, capped at a maximum remaining amount of £35.2m.

20. Borrowings, other financial liabilities and other financial assets

This note should be read in conjunction with the further liquidity disclosures in our accounting policies note and the Finance Review on pages 46 to 49.

Other secured bank loans	9.8	1.8
Other unsecured bank loans	2.3	1.3
Lease liabilities	78.3	71.0
	872.9	847.2

During October 2021, the Group extended the existing 2019 Club facility by a further year, resetting its five-year term and resulting in a maturity date of October 2026. Interest is charged on this agreement at a floating rate based on ICE GBP LIBOR, ICE LIBOR or EURIBOR, depending upon the drawdown currency, plus a variable margin. Due to the cessation of ICE GBP LIBOR at the end of 2021, the Group updated the existing 2019 Club facility to include SONIA (Risk Free Rate) for GBP based borrowings. Until 31 December 2021, GBP borrowings were drawn using ICE GBP LIBOR. In July 2020 the Group arranged a three-year amortising Term Loan for US\$200m. Interest is charged on this agreement at a floating rate based on ICE LIBOR plus a variable margin. The margin the Group pays on this borrowing over and above standard rates is determined by the Group's net debt to EBITDA ratio.

	2021 £m	2020 £m
Maturity profile of financial liabilities		
Repayments fall due as follows:		
Within one year		
Bank loans and overdrafts	36.4	37.8

Fair values

Prior to 2016, the Group did not typically utilise complex financial instruments and accordingly the only element of Group borrowings where fair value differed from book value was the US\$100m fixed rate 10-year note that was issued in 2010. In January 2020 the existing US\$100m fixed rate 10-year note matured and was repaid, this was replaced with a new US\$100m fixed rate 10-year note (27 January 2020). On 27 June 2016, the Group issued £100m and €100m of fixed rate notes. On 6 June 2019, the Group issued a further £65m, €50m and US\$60m of fixed rate notes.

The table below details a comparison of the book and fair values of the Group's financial assets and liabilities. Where there are no readily available market values to determine fair values, cash flows relating to the various instruments have been discounted at prevailing interest and exchange rates to give an estimate of fair value.

	Book value 2021 £m	Fair value 2021 £m	Book value 2020 £m	Fair value 2020 £m
Cash deposits	112.8	112.8	106.5	106.5

Lease liabilities	(90.5)	(90.5)	(81.7)	(81.7)
Forward foreign currency contracts	(2.3)	(2.3)	–	–

For financial instruments with a remaining life of greater than one-year, fair values are based on cash flows discounted at prevailing interest rates. Accordingly, the fair value of cash deposits and short-term borrowings approximates to the book value due to the short maturity of these instruments. The same applies to trade and other receivables and payables excluded from the above analysis.

Financial instruments

Financial instruments measured at fair value use the following hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

All of the Group's financial instruments are classed as level 2 with the exception of contingent consideration, other investments and lease liabilities, which are classed as level 3.

Borrowing facilities

As at 31 December 2021, the Group had undrawn committed facilities of £334.4m (2020: £378.3m). In addition, the Group had other undrawn facilities of £40.1m (2020: £50.1m) available. Of the Group's total committed facilities of £1,225.8m, £1,211.0m expire after 2022. New and repaid borrowings disclosed in the Group Statement of Cash Flows reflect routine short-term cash management, comprising regular monthly drawdowns and repayments on the Group's revolving credit facilities.

Financial risk factors

The Group's activities expose it to a variety of financial risks: currency risk, interest rate risk, liquidity risk, and credit risk. The Group's overall risk management strategy is approved by the Board and implemented and reviewed by the Risk Management Committee. Detailed financial risk management is then delegated to the Group Finance department which has a specific policy manual that sets out guidelines to manage financial risk. Regular reports are received from all sectors and regional operating units to enable prompt identification of financial risks so that appropriate action may be taken. In the management definition of capital the Group includes ordinary and preference share capital and net debt.

Currency risk

The Group operates internationally and is exposed to currency risk arising from various currency exposures, primarily with respect to the US Dollar and the Euro. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. Entities in the Group use foreign currency bank balances to manage their foreign exchange risk arising from future commercial transactions, recognised assets and liabilities. The Group's risk management policy is to manage transactional risk up to three months forward. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is not specifically hedged but is reduced primarily through borrowings denominated in the relevant foreign currencies where it is efficient to do so. Currency exposure arising from significant one-off transactions (for example acquisitions or disposals) is reviewed and hedged through forward contracts if required.

For 2021, had the Group's basket of reporting currencies been 10% weaker/stronger than the actual rates experienced, post-tax profit for the year would have been £29.4m (2020: £18.9m) lower/higher than reported, primarily as a result of the translation of the profits of the Group's overseas entities, and equity would have been £156.5m (2020: £141.5m) lower/higher.

Cash flow hedging

At 31 December 2021, the Group held two instruments to hedge exposures to changes in foreign currency on a highly probable future business disposal and debt repayment (hedged items), with a maturity profile of less than one year. The combined nominal value of the contracts was £601.9m and the average forward contract rates were 0.85 (EUR:GBP) and 1.12 (EUR:USD). These contracts are contingent on the successful completion of the business disposal and were designated as cash flow hedges. These hedging activities provide the Group with certainty over approximately 85% of its estimated FX exposure on these forecast future transactions.

The combined carrying amount of the contracts was a £2.3m liability at 31 December 2021, reported within trade and other payables. At 31 December 2021, the cash flow hedging reserve was £3.0m credit (2020: £nil), net of £0.7m tax, and the costs of hedging reserve was £4.9m debit (2020: £nil), net of £1.1m tax. There was no hedge ineffectiveness or reclassifications recognised in the income statement during the year ended 31 December 2021.

A 10% strengthening/weakening of GBP, Euro or USD at 31 December 2021 would have affected the measurement of the forward contracts and therefore equity by approximately £56m. This analysis assumes that all other variables remain constant and ignores any impact of forecast future transactions.

Interest rate risk

The Group has both interest bearing assets and liabilities. In 2016, the Group had a policy of maintaining no more than 60% of its gross borrowings at fixed interest rates in normal circumstances. During 2016, the Group increased its amount of fixed rate debt following payment of the £136m special dividend and consequent increase in core debt requirements. Notes were issued in the amounts of £100m and €100m with an average maturity of 3.6 years and interest rate of 2.08%. During 2017, the policy formally increased the upper limit for fixed rate debt to 75% of gross borrowings. During 2019, the Group increased its amount of fixed rate debt following payment of the £151.5m special dividend. Notes were issued in the amounts of £65m, €50m and US\$60m with an average maturity of 6.1 years and interest rate of 2.47%. In January 2020 the Group repaid its US\$100m 10-year loan note carrying a fixed rate of 5.94% and replaced it with a US\$100m 10-year loan note carrying a fixed rate of 3.75%. At 31 December 2021, approximately 45% of Group borrowings were at fixed rates.

At 31 December 2021, aside from the loan notes referred to above, all Group debt and cash was exposed to repricing within 12 months of the balance sheet date.

At 31 December 2021, the Group's fixed rate debt was at a weighted average rate of 2.53% (2020: 2.50%). The Group's floating rate liabilities are predominantly based on LIBOR and its overseas equivalents.

Based on the above, had interest rates moved by 10 basis points in the territories where the Group has substantial borrowings, post-tax profits would have moved by £0.5m (2020: £0.4m) due to a change in interest expense on the Group's floating rate borrowings.

Financial statements (continued)

Notes to the Group Accounts (continued)

20. Borrowings, other financial liabilities and other financial assets continued

Liquidity risk

The Group actively maintains a mixture of long-term and short-term committed facilities designed to ensure that the Group has sufficient funds available for operations and planned investments.

On a regular basis, management monitors forecasts of the Group's cash flows against both internal targets and those targets imposed by external lenders. The Group has substantial committed, unused facilities and the Directors are confident this situation will remain the case for the foreseeable future.

Credit risk

The Group has no significant concentrations of credit risk. It has policies in place to ensure that sales of products are made to customers with an appropriate credit history. Derivative counterparties and cash transactions are limited to high-credit quality financial institutions. The Group has policies that limit the amount of credit exposure to any individual financial institution.

Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, as well as maintaining an optimal capital structure to reduce overall cost of capital.

In order to maintain this optimal structure, the Group may adjust the amount of dividends paid, issue new shares, return capital to shareholders or dispose of assets to reduce net debt. Given the Group's strong balance sheet and sustained trading growth, the Group announced a dividend policy in 2011 of paying a dividend of between 40% and 50% of sustainable earnings. Further details can be found in the Finance Review on pages 46 to 49.

Underlying growth coupled to Return on Invested Capital (ROIC) is the key perceived driver of shareholder value within the Group. The Group's ROIC now stands at 14.2% against a post-tax Weighted Average Cost of Capital (WACC) of 6.4%, thus hitting the Group's target of maintaining ROIC at two to three times WACC. In addition, the Group employs two widely used ratios to measure its ability to service its debt. Both net debt/EBITDA and EBITDA interest cover were well ahead of target in 2021. Further details can be found in the Finance Review on pages 46 to 49. The Group was in compliance with its covenant requirements throughout the year. Additional information on progress against Key Performance Indicators can be found on pages 44 and 45.

21. Provisions

	Environmental £m	Restructuring £m	Other £m	Total £m
At 1 January 2021	6.3	2.7	1.6	10.6
Exchange differences	0.1	–	–	0.1

Charged to the income statement	0.8	–	2.8	3.6
Cash paid against provisions and utilised	(1.1)	(1.9)	(0.2)	(3.2)
At 31 December 2021	5.7	–	3.4	9.1

Analysis of total provisions

	2021 £m	2020 £m
Current	5.5	6.7
Non-current	3.6	3.9
	9.1	10.6

Provisions are made where a constructive or legal obligation has arisen from a past event, can be quantified and where the timing of the transfer of economic benefits relating to the provisions cannot be ascertained with any degree of certainty.

The environmental provision relates to soil and potential groundwater contamination on a number of sites, both currently in use and previously occupied, in Europe and the Americas.

In relation to the environmental provision, the Directors expect that the balance will be utilised within 10 years. Provisions for remediation costs are made when there is a present obligation, it is probable that expenditures for remediation work will be required and the cost can be estimated within a reasonable range of possible outcomes. The costs are based on currently available facts and prior experience. Environmental liabilities are recorded at the estimated amount at which the liability could be settled at the balance sheet date. Remediation of environmental damage typically takes a long time to complete due to the substantial amount of planning and regulatory approvals normally required before remediation activities can begin. In addition, increases in or releases of environmental provisions may be necessary whenever new developments occur or additional information becomes available. Consequently, environmental provisions can change significantly and the timing and quantum of costs are inherently uncertain. The level of environmental provision is based on management's best estimate of the most likely outcome for each individual exposure.

The Group has also considered the impact of discounting on its provisions and has concluded that, as a consequence of the significant utilisation expected in a relatively short timescale, the impact is not material.

22. Ordinary share capital

Ordinary shares of 10.61p (2020: 10.61p)	2021	2020
	£m	£m
Allotted, called up and fully paid		
At 1 January – 142,536,884 (2020: 131,906,881) ordinary shares	15.1	14.0
Issued in the year	–	1.1
At 31 December – 142,536,884 (2020: 142,536,884) ordinary shares	15.1	15.1

On 20 November 2020, following consultation with shareholders, the Company issued 10,630,003 ordinary shares at a price of 5900p per share, raising £615.5m net of fees resulting in a share premium of £614.4m.

During 2021, options were granted to employees under the Croda International Plc Sharesave Scheme to subscribe for 55,474 ordinary shares at an option price of 7327p per share and under the Croda International Plc International Sharesave Plan to subscribe for 202,071 ordinary shares at an option price of 7327p per share. Conditional awards over 130,131 ordinary shares were granted under the Performance Share Plan during the year and 52,370 under the Free Share Plan. Also granted in the year were 8,621 shares under the Restricted Share Plan.

During the year consideration of £2.6m was received on the exercise of options over 62,581 shares. The options were satisfied with shares transferred from the Group's employee share trusts. Since the year end a further 999 shares have been transferred from the trusts. During the year, the Group purchased 78,744 of its own ordinary shares to satisfy awards under various share-based payment schemes for consideration of £4.9m.

The outstanding options to subscribe for ordinary shares were as follows at the balance sheet date:

	Year option granted	Number of shares	Price	Options exercisable from
Croda International Plc Sharesave Scheme	2018	4,434	4144p	1 Nov 2021 to 30 Apr 2022
	2019	83,463	3898p	1 Nov 2022 to 30 Apr 2023
	2020	70,019	4804p	1 Nov 2023 to 30 Apr 2024
	2021	54,505	7327p	1 Nov 2024 to 30 Apr 2025

23. Share-based payments

The impact of share-based payment transactions on the Group's financial position is as follows:

	2021	2020
	£m	£m
Analysis of amounts recognised in the income statement:		
Charged in respect of equity settled share-based payment transactions	10.3	2.5
Charged in respect of cash settled share-based payment transactions	31.0	11.1
	41.3	13.6
Analysis of amounts recognised in the balance sheet:		
Liability in respect of cash settled share-based payment transactions	28.0	9.2

The key elements of each scheme along with the assumptions employed to arrive at the charge in the income statement are set out below. Where appropriate the expected volatility has been based on historical volatility considering daily share price movements over periods equal to the expected future life of the awards and the risk free rate is based on the Bank of England's projected nominal yield curve with appropriate duration.

Notes to the Group Accounts (continued)

23. Share-based payments continued

Croda International Plc Sharesave Scheme ('Sharesave')

The Sharesave Scheme, established in 1983 and renewed in 2013, grants options annually in September to employees of the Group at a fixed exercise price, being the market price of the Company's shares at the grant date discounted by up to 20%. Employees then enter into a savings contract over three years and, subject to continued employment, purchase options at the end of the period based on the amount saved. Options are then exercisable for a six month period following completion of the savings contract. For options granted in the year, the fair value per option granted and the assumptions used in the calculation of the value are as follows:

	2021	2020
Grant date	16 Sep 2021	10 Sep 2020
Share price at grant date	9144p	6078p
Exercise price	7327p	4804p
Number of employees	727	692

Forfeited	(11,177)	4524p	(6,659)	3895p
Exercised	(62,581)	4081p	(79,126)	3081p
Outstanding at 31 December	212,421	5082p	230,705	4243p
Exercisable at 31 December	4,434	4144p	3,745	3092p
For options exercised in year, weighted average share price at date of exercise		9206p		5969p
Weighted average remaining life at 31 December (years)	2.4		2.4	

Croda International Plc International Sharesave Plan 2009 ('International')

The International scheme, established in 1999 and renewed in 2009, has the same option pricing model, savings contract and vesting period as the Sharesave scheme. At exercise, employees are paid a cash equivalent for each option purchased, being the difference between the exercise price and market price at the exercise date. For options granted in the year, the fair value per option granted and the assumptions used in the calculation of the value are as follows:

	2021	2020
Grant date	16 Sep 2021	10 Sep 2020
Share price at grant date	9144p	6078p
Exercise price	7327p	4804p

Weighted average remaining life at 31 December (years)	1.8		1.9	

Croda International Plc Performance Share Plan 2014 ('PSP')

The PSP scheme was established in 2014 and replaced the Company's previous Executive long-term incentive plans. The PSP provides for awards of free shares (i.e. either conditional shares or nil-cost options) normally made annually which vest after three years dependent upon an EPS performance related sliding scale (non-market condition), an NPP growth measure (non-market condition), sustainability conditions in relation to decarbonisation roadmaps and emissions (non-market conditions) and the Group's total shareholder return (market condition). The PSP is discussed in detail in the Directors' Remuneration Report (pages 84 to 108). Shares (on an after-tax basis) are subject to a two-year post vesting holding period. For options granted in the year, the fair value per option granted and the assumptions used in the calculation of the value are as follows:

	2021		2020		2020	
	Market condition	Non-market condition	Market condition	Non-market condition	Market condition	Non-market condition
Grant date	24 Mar 2021	24 Mar 2021	29 Apr 2020	29 Apr 2020	25 Mar 2020	25 Mar 2020
Share price at grant date	6401p	6401p	4936p	4936p	4280p	4280p
Number of employees	68	68	2	2	57	57
Shares under conditional award	45,546	84,585	16,956	31,491	44,053	81,812
Vesting period	Three years

Weighted average remaining life at 31 December (years)	1.3		1.3	

Croda International Plc Deferred Bonus Share Plan ('DBSP')

The DBSP scheme was established in 2014. Under the DBSP, one third of any annual bonuses due to certain senior executives are deferred. The size of award is determined by the amount of the total bonus divided by one third and converted into a number of Croda shares using the market value of shares at the time the award is granted. Awards are increased by the number of shares equating to the equivalent value of any dividend paid during the option period. The awards vest on the third anniversary of the date of grant unless the recipient has been dismissed for cause. No further awards were granted after 2019. There are no performance conditions applied to the award. The DBSP is also discussed in the Directors' Remuneration Report (pages 84 to 108).

Weighted average remaining life at 31 December (years)	0.2		0.5	

Croda International Plc Restricted Share Plan ('RSP')

The RSP scheme was established in 2018 and provides for awards of free shares or cash equivalent to a limited number of employees not eligible for the PSP scheme, based on a percentage of salary. The awards vest on the third anniversary of the date of grant, subject to the condition that the employee remains employed by the Group. There are no performance conditions applied to the award. On the vesting date, UK employees will be awarded free shares and non-UK employees will be paid a cash equivalent based on the market price.

Croda International Plc Free Share Plan ('FSP')

The FSP scheme was established in 2021 and provides for awards of free shares or cash equivalent to eligible employees. The Company has discretion to set the number of shares awarded. The awards will vest provided that the employee remains employed by the Group and that a bonus payment is paid under the terms of the Company's Group Profit Incentive Bonus Scheme in respect of the financial year concerned. Subject to the two conditions being met, on the vesting date, UK employees (and certain other identified jurisdictions) will be awarded free shares and non-UK employees will be paid a cash equivalent based on the market price.

Croda International Plc Share Incentive Plan ('SIP')

The SIP was established in 2003 and has similar objectives to the Sharesave Scheme in terms of increasing employee retention and share ownership. Under the SIP scheme, employees enter into an agreement to purchase shares in the Company each month. For each share purchased by an employee, the Company awards a matching share which passes to the employee after three years' service. The matching shares are allocated each month at market value with this fair value charge being recognised in the income statement in full in the year of allocation.

24. Preference share capital

	2021	2020
	£m	£m
The authorised, issued and fully paid preference share capital comprises:		
615,562 5.9% preference shares of £1 (2020: 615,562)	0.6	0.6
498,434 6.6% preference shares of £1 (2020: 498,434)	0.5	0.5
21,900 7.5% preference shares of £1 (2020: 21,900)	–	–
	1.1	1.1

The preference shares have no redemption rights and carry no voting rights other than in certain circumstances affecting the rights of the preference shareholders, details of which are set out in the Company's Articles of Association. The three classes of preference shares rank *pari passu* with each other but ahead of the ordinary shares on a winding up. Rights on a winding up are limited to repayment of capital and any arrears of dividends.

Notes to the Group Accounts (continued)

25. Shareholders' equity

Croda International Plc Qualifying Share Ownership Trust (QUEST), Croda International Plc Employee Benefit Trust (CIPEBT) and Croda International Plc AESOP Trust (AESOP) each hold shares purchased on the open market or transferred from treasury shares to satisfy the future issue of shares under the Group's share option schemes. As at 31 December 2021 the QUEST had a net amount due from the Company of £16.1m (2020: £13.6m) and held 30,640 (2020: 93,221) shares transferred at a nil cost (2020: nil cost) with a market value of £3.1m (2020: £6.1m). As at 31 December 2021 the CIPEBT was financed by a repayable on demand loan to the Company of £26.9m (2020: £21.9m) and held 910 (2020: 910) shares transferred at a nil cost (2020: nil cost) with a market value of £0.1m (2020: £0.1m).

As at 31 December 2021 the AESOP had issued all its previously held shares, as financed by the Company, and thus had no residual loan balance with the Company. All of the shares held by the QUEST and CIPEBT were under option at 31 December 2021 and, except for a nominal amount, the right to receive dividends has been waived.

As at 31 December 2021 the total number of treasury shares held was 3,018,203 (2020: 3,018,203) with a market value of £303.2m (2020: £199.1m).

26. Non-controlling interests in equity

	2021 £m	2020 £m

At 31 December	12.8	9.3

27. Related party transactions

The Group has no related party transactions, with the exception of remuneration paid to key management and Directors which is included in note 10.

28. Business combinations

2021 Acquisitions

On 2 March 2021, the Group acquired the worldwide business activities of Alban Muller including 100% of the shares and voting interests of Acallmi for a total consideration of £15.2m. Established in France and employing 90 people, Alban Muller specialises in eco-responsible solutions to developing innovative botanical extracts, natural formulation ingredients and natural organic cosmetics. The company is an excellent fit for Croda's Beauty Actives business (part of the Consumer Care sector) and provides Croda with access to innovative technology in the botanicals market.

On 1 June 2021, the Group acquired a 96% majority shareholding in Parfex S.A. ('Parfex'), a fine fragrance business based in Grasse, France for a total consideration of £35.4m. Employing 75 people, Parfex creates fragrances principally for premium personal care and fine perfumery markets, leveraging the natural raw materials that are available in the region. The company will form part of the newly created Fragrances & Flavours business (part of the Consumer Care sector) alongside Iberchem acquired in November 2020.

The following table summarises the Directors' assessment of the consideration paid in respect of the acquisitions, and the fair value of assets acquired and liabilities assumed.

	Alban Muller £m	Parfex £m
Cash consideration	15.2	35.4
Fair value of assets and liabilities acquired		
Intangible assets	8.9	19.5
Property, plant and equipment	7.1	5.9
Right of use assets	1.2	0.1
Lease liabilities	(1.2)	(0.1)
Cash/(overdrafts)	1.8	(0.1)
Borrowings	(5.7)	–
Working capital	–	4.6
Retirement benefit liabilities	(0.4)	(0.5)
Deferred tax	(3.0)	(5.9)
Total identifiable net assets	8.7	23.5
Fair value of NCI	–	(1.6)
Goodwill	6.5	13.5

Total cash consideration paid in the period of £58.1m includes the above acquisitions (net of cash) of £48.9m and £9.2m of payment on contingent consideration in respect of previous acquisitions. Acquisition-related costs of £1.5m have been charged to administration expenses in the income statement for the year ended 31 December 2021 (2020: £11.7m). Post-acquisition, Alban Muller and Parfex contributed combined revenue of £23.3m and a small adjusted operating profit. Had the acquisitions been made on 1 January 2021, the Group's revenue would have been £1,924.7m with adjusted operating profit of £469.8m.

2020 Acquisitions

On 12 August 2020, the Group acquired 100% of the shares and voting interests of Avanti Polar Lipids, LLC ('Avanti'), a knowledge-intensive leader in lipid-based drug delivery technologies for next generation pharmaceuticals. Based in Alabama in the US, Avanti creates and makes high-purity polar lipids that are increasingly being used as delivery systems for complex therapeutic drugs and in next-generation mRNA vaccines. The acquisition will continue to operate under its existing brand, led by the current management team, and will form part of our Health Care business (Life Sciences sector). The acquisition will more than double Croda's research and development (R&D) capability in drug delivery and also provide a new channel to market for Croda's ingredients for early-stage pharmaceutical research. Avanti was acquired for total consideration of £173.9m, with identifiable net assets of £112.8m, generating goodwill of £61.1m. Total consideration for Avanti is inclusive of £35.5m contingent consideration, representing the gross fair value at the date of acquisition of £42.1m before discounting. The additional consideration is payable semi-annually over three years based on the revenue from near-term commercial opportunities using Avanti's lipid-based solutions which were not included in the valuation for payment of the initial consideration.

On 24 November 2020, the Group acquired 100% of the shares and voting interests of Fragrance Spanish Topco, S.L. trading as Iberchem ('Iberchem'), a leading global fragrances and flavours ('F&F') company. Headquartered in Murcia, Spain, Iberchem has approximately 850 employees, 14 manufacturing facilities, 10 R&D centres and a commercial presence in 120 countries. The acquisition will form part of the new Consumer Care sector from 2021. The acquisition will create a new full service formulation and fragrance offering for Personal Care and Home Care as well as providing access to a high growth adjacency in the global F&F market with significant exposure to emerging markets. Iberchem was acquired for consideration of £756.5m, with identifiable net assets of £304.7m, generating goodwill of £454.0m.

During 2021, the Group completed the fair value review relating to its 2020 acquisitions. This review did not identify any changes to the asset base or goodwill.

Of the retained earnings, £852.7m (2020: £720.0m) are realised and £597.1m (2020: £843.1m) are unrealised. Details of investments in own shares are disclosed in note 25 of the Group financial statements.

Financial statements (continued)

Notes to the Company Financial Statements

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all years presented, unless otherwise stated.

A. Accounting policies

Basis of accounting

The Company meets the definition of a qualifying entity under Financial Reporting Standard 100 (FRS 100) issued by the Financial Reporting Council. These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101"). In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of UK-adopted international accounting standards, but makes amendments where necessary in order to comply with the Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken. The financial statements have been prepared under the historical cost convention, in compliance with the provisions of the Act and the requirements of the Listing Rules of the Financial Conduct Authority.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under the standard in relation to share-based payments, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions. Where required, equivalent disclosures are provided in the Group financial statements of Croda International Plc.

Going concern

The financial statements which appear on pages 162 to 167 have been prepared on a going concern basis as, after making appropriate enquiries, including a review of forecasts, budgets and banking facilities, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence.

Principal accounting policies

The accounting policies which have been applied by the Company when preparing the financial statements are in accordance with FRS 101. FRS 101 is based on the recognition and measurement requirements of Adopted IFRSs, under which the Group financial statements have been prepared. As a result, the accounting policies of the Company are consistent with those used by the Group as presented on pages 125 to 131, except for those relating to the recognition and measurement of goodwill and the recognition of revenue, which are not directly relevant to the Company financial statements. Investments are held at cost less accumulated impairment. Investments are subject to impairment testing upon indication of impairment, at which point the carrying value is reviewed against the underlying net assets or forecast cash generation of the entity. The Group accounting policy for financial risk factors is also relevant to the preparation of the Company financial statements and is disclosed on pages 153 and 154.

B. Profit and loss account

Of the Group's profit for the year, £2.2m (2020: £43.0m) is included in the profit and loss account of the Company which was approved by the Board on 28 February 2022 but which is not presented as permitted by Section 408 Companies Act 2006.

Included in the Company profit and loss account is a charge of £0.2m (2020: £0.1m) in respect of the Company's audit fee.

C. Employees

	2021 £m	2020 £m
Company employment costs including Directors		
Wages and salaries	13.1	6.7
Share-based payment charges (note L)	5.9	1.2
Social security costs	1.9	1.1
Post-retirement benefit costs	0.8	0.7
	21.7	9.7

	2021 Number	2020 Number
Average employee numbers by function		
Production	21	15
Administration	41	39
	62	54

As required by the Companies Act 2006, the figures disclosed above are weighted averages based on the number of employees including Executive Directors. At 31 December 2021, the Company had 69 (2020: 54) employees in total.

Detailed information concerning Directors' remuneration, interests and options is shown in section D of the Directors' Remuneration Report, which is subject to audit, on pages 97 to 105 which forms part of the Annual Report and Accounts.

D. Intangible assets

	Computer software £m
Cost	
At 1 January 2021	1.6
Additions	0.2
At 31 December 2021	1.8
Accumulated amortisation	
At 1 January 2021	0.8
Charge for the year	0.2
At 31 December 2021	1.0
Net carrying amount	
At 31 December 2021	0.8
At 31 December 2020	0.8

E. Tangible assets

	Land and buildings £m	Plant and equipment £m	Total £m
Cost			
At 1 January 2021	2.2	1.8	4.0
Disposals	–	(0.2)	(0.2)
At 31 December 2021	2.2	1.6	3.8
Accumulated depreciation			
At 1 January 2021	1.5	1.0	2.5
Charge for the year	–	0.2	0.2
Disposals	–	(0.2)	(0.2)
At 31 December 2021	1.5	1.0	2.5
Net book amount			
At 31 December 2021	0.7	0.6	1.3
At 31 December 2020	0.7	0.8	1.5

F. Shares in Group undertakings

	Shares £m	Loans £m	Total £m
Cost			
At 1 January 2021	1,111.3	287.5	1,398.8
Exchange differences	–	(6.3)	(6.3)
Additions	4.9	148.2	153.1
Amounts repaid	(0.3)	(130.4)	(130.7)
At 31 December 2021	1,115.9	299.0	1,414.9
Impairment			
At 1 January 2021	27.8	1.5	29.3
Impairment in the year	–	–	–
At 31 December 2021	27.8	1.5	29.3
Net book value			
At 31 December 2021	1,088.1	297.5	1,385.6
At 31 December 2020	1,083.5	286.0	1,369.5

The undertakings which affect the financial statements are listed on pages 168 to 170.

Additions to shares in the year of £0.5m relate to the continued investment in Cowick Insurance Services Ltd and £4.4m of capital contributions in relation to share-based payments.

The Directors believe that the carrying value of the investments is supported by their underlying net assets or forecast cash generation.

Financial statements (continued)

Notes to the Company Financial Statements (continued)

G. Debtors

	2021 £m	2020 £m
Amounts owed by Group undertakings	1,325.2	1,452.2
Corporation tax	46.4	27.0
Other receivables	–	0.1
Prepayments	1.6	0.2
	1,373.2	1,479.5

Although the amounts owed by Group undertakings have no fixed date of repayment, £1,324.6m (2020: £1,450.2m) is expected to be collected after one year. Of the amount at 31 December 2021, £1,324.1m will continue to attract interest from 1 January 2022 at a floating rate based on the main facility agreement. The remainder will continue to be interest free.

H. Deferred tax

The deferred tax (liabilities)/assets included in the balance sheet are attributable to the following:

	2021 £m	2020 £m
Retirement benefit obligations	(0.2)	0.1
Cash flow hedging	0.4	–
	0.2	0.1

The movement on deferred tax balances during the year is summarised as follows:

At 1 January	0.1	0.4
Deferred tax credited/(charged) through the profit and loss account	0.3	(0.2)
Deferred tax charged to other comprehensive income	(0.2)	(0.1)
At 31 December	0.2	0.1

Deferred tax assets were recognised in all cases where such assets arose, as it was probable that the assets would be recovered.

I. Creditors: Amounts falling due within one year

	2021 £m	2020 £m
Amounts falling due within one year		
Trade payables	0.5	2.3
Taxation and social security	2.2	1.5
Amounts owed to Group undertakings	54.6	51.0
Other payables	3.3	3.3
Accruals and deferred income	15.5	6.8
	76.1	64.9

The amounts owed to Group undertakings are interest free, unsecured and have no fixed date of repayment.

J. Borrowings

The Company's objectives, policies and strategies in respect of financial instruments are outlined in the accounting policies note on page 130 which forms part of the Annual Report and Accounts. Short-term receivables and payables have been excluded from all of the following disclosures.

	2021 £m	2020 £m
Maturity profile of financial liabilities		
2019 Club facility due 2026	234.4	196.1
€30m 1.08% fixed rate 7 year note	25.2	26.8
€70m 1.43% fixed rate 10 year note	58.7	62.7
£30m 2.54% fixed rate 7 year note	30.0	30.0
£70m 2.80% fixed rate 10 year note	70.0	70.0
€50m 1.18% fixed rate 8 year note	41.9	44.8
£65m 2.46% fixed rate 8 year note	65.0	65.0
Bank loans and overdrafts repayable on demand	-	0.4
	525.2	495.8
Repayments fall due as follows:		
Within one year		
Bank loans and overdrafts	-	0.4
	-	0.4
After more than one year		
Loans repayable		
Within one to five years	418.3	252.9
After five years	106.9	242.5
	525.2	495.4

K. Post-retirement benefits

In line with the requirements of FRS 101, the Company recognises its share of the UK pension scheme assets and liabilities based on the number of scheme members. A full reconciliation of the Group retirement benefit obligation can be found in note 11 of the Group financial statements on pages 139 to 143. The table below shows the movement in the obligation during the year.

	2021 £m	2020 £m
Opening balance:		
Assets	56.0	53.2
Liabilities	(56.7)	(55.2)
Net opening retirement benefit liability	(0.7)	(2.0)
Movements in the year:		
Service cost – current	(0.8)	(0.7)
Contributions	0.8	1.4
Remeasurements	1.5	0.6
Closing balance	0.8	(0.7)

L. Share-based payments

The total charge for the year in respect of share-based remuneration schemes was £5.9m (2020: £1.2m). The grant by the Company of options over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

The key elements of each scheme along with the assumptions employed to arrive at the charge in the profit and loss account are set out in note 23 to the Group financial statements.

M. Contingent liabilities

The Company has guaranteed loan capital and bank overdrafts of subsidiary undertakings amounting to £272.3m (2020: £285.3m).

N. Dividends

Details of dividends are disclosed in note 8 of the Group financial statements.

O. Related party transactions

The Company has taken advantage of the exemption available under FRS 101 from disclosing transactions with other Group undertakings. There were no other related party transactions during the year. Information on the Group can be found in note 27 on page 160 of the Group financial statements.
