

Press Release

11 April 2018

Capital Markets Event

Croda International Plc (“Croda” or the “Group”) is the speciality chemical company that creates high performance ingredients and technologies relied upon by industries and consumers globally.

Croda International plc is hosting a Capital Markets Event for analysts and investors beginning today at its Incotec facility in the Netherlands and concluding on Thursday with a series of presentations in Amsterdam.

The theme of the event is creating shareholder value through:

- Growing the Core: driving robust top line growth, ahead of the market, with industry leading margins, to deliver profit, cash and superior return on invested capital;
- Stretching the Growth: accelerating delivery in our core markets and market adjacencies.

The event will showcase the Group’s global strength in Crop Care, together with its market leading Personal Care business. It will also explore how the Group’s investment in new technology opportunities will develop new businesses in Croda’s existing and adjacent markets.

No new material information will be provided during the event. The presentations will be available on www.croda.com on Thursday morning.
